The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. MAHONEY of Florida).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 5, 2007.

I hereby appoint the Honorable TIM MAHONEY to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2007, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 30 minutes and each Member, other than the majority and minority leaders and the minority whip, limited to 5 minutes.

The Chair recognizes the gentleman from California (Mr. GEORGE MILLER) for 5 minutes.

PRESIDENT MUSHARRAF OF PAKISTAN

Mr. GEORGE MILLER of California. Mr. Speaker, this weekend a devastating blow was struck against the efforts to try to grow and make sustainable democracy in Pakistan when President Musharraf of Pakistan announced that he would have an emergency order which has essentially become martial law against all those in the country who disagreed with him; against all of those on the supreme court, all of those in the legal community, all of those in general society who disagree with him are now subject to arrest, are subject to beatings, are subject to imprisonment. That is wrong, and this country cannot look the other way.

For too long this administration and this Congress have looked the other way as President Musharraf has worked to limit and now crush democracy in Pakistan. Too many excuses have been offered to allow him to continue this trend against free and open elections, against a growing democracy, against a growing independent press and TV stations because we said he is helping us in Pakistan against the terrorists, the Taliban, in Afghanistan.

Of course, what we know is that he has played us over these many years as he has received billions of dollars in aid. He has continued to play us to suggest that he is really concentrating on the effort to rid both Afghanistan and Pakistan of terrorists, but in fact that is not what has been taking place. In fact, he has cut agreements, he has arranged for safe haven, for safe travel for the Taliban as they have moved back and forth against our troops and against people in Afghanistan who are trying to establish a democracy there.

Some months ago when I visited Afghanistan, we asked the commander of our troops there what was the biggest threat to our troops in Afghanistan, and he said the border with Pakistan. And that remains true today as the Taliban move back and forth, as recruits from al Qaeda move back and forth, and at a time when President Musharraf simply gives voice to the idea that he is going to stop this from happening, that he is going to create an environment where that will not be allowed to continue. That simply has not happened, because President Musharraf has been more interested in securing his reelection as the leader of Pakistan than he has been in getting rid of the extremists and the terrorists. In fact, he has allowed the extremists to grow even in Islamabad, where their presence wasn't known only a few years ago.

We must take a stand against these actions. We must speak out. The administration has spoken out now, but already questions are being raised as to whether or not we will condition aid, whether or not we will forcefully show Musharraf that we cannot have him crush democracy in Pakistan. Pakistan needs more democracy, not less. It needs democracy to strengthen that country so that it can reject extremism and terrorists. It needs free elections so that the people will believe that they are represented, not by the continuing building of a dictatorship by President Musharraf who controls the military, who controls the intelligence, and now is using them against the very people that he is supposed to represent, and that is the people of Pakistan. We cannot stand by while he takes this extraordinary effort to crush democracy, to potentially postpone the elections, to seize the independent media, and to throw hundreds and hundreds so far of his citizens into jail because they simply seek to oppose him and seek a brighter future, a more democratic future for the country of Pakistan.

The time has come for this country to take a very strong stand against the corruption of this government and the growing dictatorship presented by the rule of President Musharraf.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 37 minutes p.m.), the House stood in recess until 2 p.m.

☐ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. RUPPERSBERGER) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God of power and mercy, peace is not the absence of war, nor is it found in the simple balance of opposing forces. Peace cannot be imposed by absolute power. For us, Lord, peace will always be the work of justice.

You have implanted in human society an innate desire for order which can be realized only when people hunger and thirst for an ever more perfect justice.

Bring Congress to order, Lord, that it may model behavior for this democracy. Make it Your instrument, to instill in the minds and hearts of the Nation a fervent and consuming desire for equal justice among all peoples. Thus may this Nation give You glory now and forever.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Wisconsin (Mr. KAGEN) come forward and lead the House in the Pledge of Allegiance.

Mr. KAGEN led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

HONORING THE MEMORY OF NAVAL CHIEF PETTY OFFICER PATRICK WADE

(Mr. KAGEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KAGEN. Mr. Speaker, kindly join me in honoring the memory of Naval Chief Petty Officer Patrick Wade from Manawa, Wisconsin, who perished in combat on July 17, 2007.

Pat Wade was a true American patriot.

While some people spend their time talking about what they think is wrong in the world, Chief Wade spent his time doing what he knew was right. Believing in personal sacrifice for the betterment of others, he made a selfless commitment to defend all of us.

Rear Admiral Michael Tillotson, deputy commander of the naval Expeditionary Combat Command on which Wade served said, "Pat Wade gave his life saving lives. He was doing what he wanted."

It is difficult for most of us to comprehend such selflessness. Chief Wade's life was one of putting principle into practice. He wanted us to be not only better Americans, but better people.

Today, with this in mind, please join me in honoring his life of service.

MILITARY FAMILY APPRECIATION MONTH

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, November is Military Family Appreciation Month. As many brave men and women fight overseas to protect American families at home, we must not forget to recognize the millions of military families.

Military families lead unique and often challenging lives. They can be separated from their loved ones for months or years at a time. This is offset by extraordinary opportunities of education and travel and meeting new people around the world.

As a member of a three-generation military family, I know these families share a kinship with each other. As a 31-year veteran of the South Carolina Army National Guard and the father of four sons serving in the military, I ask my colleagues to join me in showing our gratitude and appreciation for these families.

I wish to recognize and thank the incredible work being done by the South Carolina National Guard Family Readiness Program. Whether it is during times of peace or war, these individuals are always ready to help military families with whatever assistance they may require.

In conclusion, God bless our troops, and we will never forget September 11th.

WATER RESOURCES DEVELOPMENT ACT OF 2007—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 110–71)

The SPEAKER pro tempore laid before the House the following veto message from the President of the United States:

To the House of Representatives:

I am returning herewith without my approval H.R. 1495, the "Water Resources Development Act of 2007."

This bill lacks fiscal discipline. I fully support funding for water resources projects that will yield high economic and environmental returns to the Nation and each year my budget has proposed reasonable and responsible funding, including $4.9 billion for 2008, to support the Army Corps of Engineers' (Corps) main missions. However, this authorization bill makes promises to local communities that the Congress does not have a track record of keeping. The House of Representatives took a $15 billion bill into negotiations with a $14 billion bill from the Senate and instead of splitting the difference, emerged with a Washington compromise that costs over $23 billion. This is not fiscally responsible, particularly when local communities have been waiting for funding for projects already in the pipeline. The bill's excessive authorization for over 900 projects and programs exacerbates the massive backlog of ongoing Corps construction projects, which will require an additional $38 billion in future appropriations to complete.

This bill does not set priorities. The authorization and funding of Federal water resources projects should be focused on those projects with the greatest merit that are also a Federal responsibility. My Administration has repeatedly urged the Congress to authorize only those projects and programs that provide a high return on investment and are within the three main missions of the Corps' civil works program: Facilitating commercial navigation, reducing the risk of damage from floods and storms, and restoring aquatic ecosystems. This bill does

not achieve that goal. This bill promises hundreds of earmarks and hinders the Corps' ability to fulfill the Nation's critical water resources needs—including hurricane protection for greater New Orleans, flood damage reduction for Sacramento, and restoration of the Everglades—while diverting resources from the significant investments needed to maintain existing Federal water infrastructure. American taxpayers should not be asked to support a pork-barrel system of Federal authorization and funding where a project's merit is an afterthought.

I urge the Congress to send me a fiscally responsible bill that sets priorities. Americans sent us to Washington to achieve results and be good stewards of their hard-earned taxpayer dollars. This bill violates that fundamental commitment. For the reasons outlined above, I must veto H.R. 1495.

GEORGE W. BUSH.

THE WHITE HOUSE, *November 2, 2007*.

The SPEAKER pro tempore. The objections of the President will be spread at large upon the Journal, and the veto message and the bill will be printed as a House document.

Pursuant to the order of the House of Thursday, November 1, 2007, further consideration of the veto message and the bill will be postponed until tomorrow.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

STOP TUBERCULOSIS (TB) NOW ACT OF 2007

Mr. ENGEL. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1567) to amend the Foreign Assistance Act of 1961 to provide increased assistance for the prevention, treatment, and control of tuberculosis, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1567

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Stop Tuberculosis (TB) Now Act of 2007".

SEC. 2. FINDINGS.

Congress finds the following:

(1) Tuberculosis is one of the greatest infectious causes of death of adults worldwide, killing 1.6 million people per year—one person every 20 seconds.

(2) One-third of the world's population is infected with the tuberculosis bacterium and an estimated 8.8 million individuals develop active tuberculosis each year.

(3) Tuberculosis is the leading infectious killer among individuals who are HIV-positive due to their weakened immune systems, and it is estimated that one-third of people with HIV infection have tuberculosis.

(4) Today, tuberculosis is a leading killer of women of reproductive age.

(5) There are 22 countries that account for 80 percent of the world's burden of tuberculosis. The People's Republic of China and India account for 36 percent of all estimated new tuberculosis cases each year.

(6) Driven by the HIV/AIDS pandemic, incidence rates of tuberculosis in Africa have more than doubled on average since 1990. The problem is so pervasive that in August 2005, African Health Ministers and the World Health Organization (WHO) declared tuberculosis to be an emergency in Africa.

(7) The wide extent of drug resistance, including both multi-drug resistant tuberculosis (MDR–TB) and extensively drug resistant tuberculosis (XDR–TB), represents both a critical challenge to the global control of tuberculosis and a serious worldwide public health threat. XDR–TB, which is characterized as being MDR–TB with additional resistance to multiple second-line anti-tuberculosis drugs, is associated with worst treatment outcomes of any form of tuberculosis. XDR–TB is converging with the HIV epidemic, undermining gains in HIV prevention and treatment programs and requires urgent interventions. Drug resistance surveillance reports have confirmed the serious scale and spread of tuberculosis with XDR–TB strains confirmed on six continents. Demonstrating the lethality of XDR–TB, an initial outbreak in Tugela Ferry, South Africa, in 2006 killed 52 of 53 patients with hundreds more cases reported since that time. Of the world's regions, sub-Saharan Africa, faces the greatest gap in capacity to prevent, find, and treat XDR–TB.

(8) With more than 50 percent of tuberculosis cases in the United States attributable to foreign-born individuals and with the increase in international travel, commerce, and migration, elimination of tuberculosis in the United States depends on efforts to control the disease in developing countries. Recent research has shown that to invest in tuberculosis control abroad, where treatment and program costs are significantly cheaper than in the United States, would be a cost-effective strategy to reduce tuberculosis-related morbidity and mortality domestically.

(9) The threat that tuberculosis poses for Americans derives from the global spread of tuberculosis and the emergence and spread of strains of multi-drug resistant tuberculosis and extensively drug resistant tuberculosis, which are far more deadly, and more difficult and costly to treat.

(10) DOTS (Directly Observed Treatment Short-course) is one of the most cost-effective health interventions available today and is a core component of the new Stop TB Strategy.

(11) The Stop TB Strategy, developed by the World Health Organization, builds on the success of DOTS and ongoing challenges so as to serve all those in need and reach targets for prevalence, mortality, and incidence reduction. The Stop TB Strategy includes six components:

(A) Pursuing high-quality expansion and enhancement of DOTS coverage.

(B) Implementing tuberculosis and HIV collaborative activities, preventing and controlling multi-drug resistant tuberculosis, and addressing other special challenges.

(C) Contributing to the strengthening of health systems.

(D) Engaging all health care providers, including promotion of the International Standards for Tuberculosis Care.

(E) Empowering individuals with tuberculosis and communities.

(F) Enabling and promoting research to develop new diagnostics, drugs, vaccines, and program-based operational research relating to tuberculosis.

(12) The Global Plan to Stop TB 2006–2015: Actions for Life is a comprehensive plan developed by the Stop TB Partnership that sets out the actions necessary to achieve the millennium development goal of cutting tuberculosis deaths and disease burden in half by 2015 and thus eliminate tuberculosis as a global health problem by 2050.

(13) While innovations such as the Global Tuberculosis Drug Facility have enabled low-income countries to treat a standard case of tuberculosis with drugs that cost as little as $16 for a full course of treatment, there are still millions of individuals with no access to effective treatment.

(14) As the global resource investment in fighting tuberculosis increases, partner nations and international institutions must commit to a corresponding increase in the technical and program assistance necessary to ensure that the most effective and efficient tuberculosis treatments are provided.

(15) The Global Fund to Fight AIDS, Tuberculosis and Malaria is an important global partnership established to combat these three infectious diseases that together kill millions of people a year. Expansion of effective tuberculosis treatment programs constitutes a major component of Global Fund investment, along with integrated efforts to address HIV and tuberculosis in areas of high prevalence.

(16) The United States Agency for International Development and the Centers for Disease Control and Prevention are actively involved with global tuberculosis control efforts. Because the global tuberculosis epidemic directly impacts tuberculosis in the United States, Congress has urged the Centers for Disease Control and Prevention each year to increase its involvement with international tuberculosis control efforts.

(17) The United States Agency for International Development is the lead United States Government agency for international tuberculosis efforts, working in close partnership with the Centers for Disease Control and Prevention and with the President's Emergency Plan for HIV/AIDS Relief. The goal of the United States Agency for International Development is to contribute to the global reduction of morbidity and mortality associated with tuberculosis by building country capacity to prevent and cure tuberculosis and achieve global targets of 70 percent case detection and 85 percent treatment success rates. The United States Agency for International Development provides support for tuberculosis programs in countries that have a high burden of tuberculosis, a high prevalence of tuberculosis and HIV, and a high risk of MDR–TB.

SEC. 3. ASSISTANCE TO COMBAT TUBERCULOSIS.

(a) POLICY.—Subsection (b) of section 104B of the Foreign Assistance Act of 1961 (22 U.S.C. 2151b-3) is amended to read as follows:

"(b) POLICY.—It is a major objective of the foreign assistance program of the United States to control tuberculosis. In all countries in which the Government of the United States has established development programs, particularly in countries with the highest burden of tuberculosis and other countries with high rates of tuberculosis, the United States Government should prioritize the achievement of the following goals by not later than December 31, 2015:

"(1) Reduce by half the tuberculosis death and disease burden from the 1990 baseline.

"(2) Sustain or exceed the detection of at least 70 percent of sputum smear-positive cases of tuberculosis and the cure of at least 85 percent of those cases detected.".

(b) AUTHORIZATION.—Subsection (c) of such section is amended—

(1) in the heading, by striking "AUTHORIZATION" and inserting "ASSISTANCE REQUIRED"; and

(2) by striking "is authorized to" and inserting "shall".

(c) PRIORITY TO STOP TB STRATEGY.—Subsection (e) of such section is amended—

(1) in the heading, to read as follows: "PRIORITY TO STOP TB STRATEGY.—";

(2) in the first sentence, by striking "In furnishing" and all that follows through ", including funding" and inserting the following:

"(1) PRIORITY.—In furnishing assistance under subsection (c), the President shall give priority to—

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. ENGEL) and the gentleman from Arkansas (Mr. BOOZMAN) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. ENGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ENGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of this bill. H.R. 1567, the Stop TB Now Act, which I introduced with my colleagues, the gentlewoman from New Mexico (Mrs. WILSON) and the gentleman from Washington (Mr. SMITH), has 106 bipartisan cosponsors, and I am proud it is moving forward today. It is a very, very important and timely bill.

International tuberculosis control has become an important issue to me. It is remarkable in this day and age, with treatment available, that TB is the biggest infectious killer of young women in the world. In fact, TB kills more women worldwide than all causes of maternal mortality. As you know, tuberculosis is also the biggest killer of people with AIDS worldwide. Someone in the world is newly infected with TB every second, and TB counts for more than one-quarter of all preventable adult deaths in developing countries.

I strongly believe that the global community, with the United States in the lead, must do more to adequately address this disease by investing in quality TB control programs, using the groundbreaking Global Plan to Stop TB as a guide. It is for this reason that I have introduced this bill, the Stop TB Now Act, which will set forth the U.S. fair share towards achieving the goals of the Global Plan.

I believe if we don't make bold and wise investments in international tuberculosis control, not only will we fail to save millions of lives and miss out on the many accompanying benefits of controlling this killer, but also that this disease will become far more difficult and costly to treat.

Extremely drug-resistant TB, or XDR-TB for short, highlights this danger. It has been found on 6 continents, is a growing epidemic in southern Africa, and is already reported to be here in the U.S. Regular, or non-drug-resistant, TB is curable with drugs that cost just $16 in most developing countries.

☐ 1415

Cases of drug-resistant TB, however, can cost thousands of dollars to cure, with treatment that is far more difficult for patients and practitioners. Drug-resistant tuberculosis is a manmade problem and is caused by poor TB treatment. We, the global community, have the power to prevent drug-resistant TB and the power to treat and control regular TB, and yet, unfortunately, we have chosen not to do so by our inaction.

Through aggressive, committed leadership, the U.S. has proven that it is feasible to massively scale-up our investment to fight HIV/AIDS and malaria, and well we should. We have increased funding to fight AIDS from $840 million in 2001 to $2.9 billion in 2004, to over $4.4 billion in the House Foreign Operations bill in fiscal year 2008.

U.S. funding for malaria efforts increased from $100 million in 2006 to an administration request of $387 million for fiscal year 2008, with a House Foreign Operations level of $350 million.

Even our response to the potential threat of avian flu has been aggressive, from just $4 million a few years ago to $100 million in the Foreign Operations budget for fiscal year 2008 and an additional $160 million in the fiscal year 2007 supplemental.

However, only tuberculosis, the greatest curable infectious killer on the planet, has been left behind, and we must correct that, and that's the purpose of this legislation.

Because of our chronic neglect of tuberculosis, this disease is not only responsible for the preventable deaths of some 4,000 people every day, it is undermining our enormous efforts and billions in investments to fight AIDS. Tuberculosis is the leading killer of people with AIDS. Through U.S. leadership, we are seeing increasing numbers of AIDS patients access life-saving antiretroviral therapy, but they're not dying of AIDS. They're dying instead of tuberculosis. And what a shame that is and how ridiculous it is when we have the power to stop and end it. And more recently, people have been dying in large numbers in southern Africa due to drug-resistant TB.

While the President's AIDS initiative has made commendable scale-ups in TB and HIV efforts, they are still, in my opinion, grossly insufficient. Much of PEPFAR's scale-up supports testing tuberculosis patients for HIV and ensuring that TB and AIDS programs work together. It's very important. I'm glad we're doing it, but it's not addressing the core TB program needs. And PEPFAR's TB-HIV efforts are focused on those co-infected with both diseases and mostly in Africa, again, while commendable, but TB is a global problem and we need to combat it everywhere.

The costs of inaction are greater than the costs laid out in this bill. This past spring, it became clearer than ever that tuberculosis knows no border when a gentleman named Andrew Speaker, an attorney from Atlanta, traveled across the globe and came back to the United States with a highly resistant form of TB. We all remember that. Many of us were shocked by it.

Being from New York, I'm very familiar with what happens when TB control is neglected. In the late 1980s to the early 1990s, the City of New York paid a dear price for its failure to invest adequately in tuberculosis control. The city, along with many other areas of the country at the time, experienced an epidemic of tuberculosis. In this case, the epidemic was a multidrug-resistant TB, which inevitably develops in the absence of basic TB control. New York City launched an aggressive tuberculosis control campaign and brought down its burden of drug-resistant TB. The cost to the city? Over $1 billion to control some 300 cases, far higher than it would have been and it would have cost to prevent the situation in the first place. Tuberculosis is not just a global issue, but as we can see, it's certainly a local one as well.

When it comes to tuberculosis, Mr. Speaker, we simply cannot afford to maintain the status quo. The resources authorized in this bill represent a realistic and urgently needed increase in funding for global TB control based on the needs laid out in a costed-out, comprehensive business plan. The cost of inaction is much, much greater.

In conclusion, I would especially like to pay tribute to our former colleague, Senator Sherrod Brown, who was a champion of global tuberculosis efforts during his time in the House. He's doing this great work as well now in the Senate.

I would also like to thank the many groups whose advocacy helped bring the Stop TB Now Act to the floor, particularly RESULTS and the American Thoracic Society.

Finally, I would like to thank Chairman LANTOS, Congressman PAYNE and their staffs for their unfailing support for tuberculosis control and this legislation and to the Energy and Commerce Committee and Mr. DINGELL for expediting consideration of this bill. I'm proud to serve on both the Foreign Affairs and the Energy and Commerce Committee, the two committees that have jurisdiction on this bill.

Again, this is truly a bipartisan bill. I wish to thank the ranking member, Ms. ROS-LEHTINEN, and all the people, all the colleagues who have cooperated on both sides of the aisle because only by working together can we get at the scourge of TB.

Mr. Speaker, I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I may consume.

The bill before us, H.R. 1567, the Stop Tuberculosis Act of 2007, has been put forward by its supporters to provide a very significant increase in our foreign aid spending on anti-TB programs abroad.

If we rely on figures gathered with the assistance of the Congressional Research Service, the bill would raise our spending on such programs through the U.S. Agency for International Development by about 6 times in the next 2 years.

According to a brief letter received late last week from the Congressional Budget Office, the bill would increase such spending somewhat less, by somewhere between two and three times in the next 2-year period.

Although it is possible that the latter estimate by CBO may inadvertently have included in its baseline comparison current funding levels for some anti-TB programs outside of the scope of this bill, it is clear that this measure seeks a major increase in the AID programs it covers.

Along those lines, the bill strongly encourages, if not directs, the President to ensure that the funds that would be provided under this bill will be transferred to the World Health Organization's "Stop TB Partnership" plan.

Finally, the funding amounts in the bill have apparently been formulated using a calculation meant to reflect what the United States' fair share might be in funding that international plan.

Mr. Speaker, I recognize the determination of the supporters of this measure to do more to combat TB overseas.

On a personal note, my mother was afflicted with tuberculosis when she was in her mid to late teens and was on her back for a year, just didn't get out of bed. So we understand the importance of eradicating TB, not only worldwide but in the United States. She's done well, though. By coincidence, this is her 86th birthday, and so she recovered fully.

I also want to thank Congressman ENGEL for his work on this. I know that he's worked very, very hard, and also Congresswoman HEATHER WILSON of New Mexico.

With that, we don't have any more speakers, and if you all don't, I will yield back.

Do you have some more speakers?

Mr. ENGEL. I have no further speakers, but I would like to respond a bit to some of the points that you made.

Mr. BOOZMAN. Mr. Speaker, I yield back the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield myself as much time as I may consume.

I thank my colleague, and I just want to let him know and let my colleagues know that we worked together with Senator LUGAR, who's the ranking member of the Senate Foreign Relations Committee, and we specified that the funding would be a ceiling, not a floor.

The bill appropriates up to $400 million in 2008 and up to $550 million in 2009, including global activities to be carried out by USAID and CDC. So that's what we did. We negotiated it so we wouldn't necessarily spend all the money. We would spend up to that amount of money, and that would be the limit, but it would not be the money that we would spend if we didn't need to spend it.

We worked closely with WHO, CDC and USAID, and the overall global number is derived from Stop TB Partnership's Global Plan to Stop TB 2006 through 2015, of which WHO is a partner and USAID is the current Chair of the Stop TB Partnership's coordinating board. The plan is well documented, detailed, costed out, and again, builds up from country estimates and was reviewed in an exhaustive process.

Finally and furthermore, the World Health Organization developed and released a "Global MDR-TB and XDR-TB Response Plan" that supplements the need calculated by the Global Plan's need in light of the outbreak of drug-resistant TB.

USAID and the CDC work together globally and both have agreed to this coordination of funding, and again, we have a ceiling of what we spend and not a floor.

So, again, I thank my colleague.

Mr. GENE GREEN of Texas. Mr. Speaker, I rise in strong support of this legislation. There is a great need, at home and abroad, for increased resources against the fight of Tuberculosis. Worldwide, nearly 2 million people died from TB in 2006. Adding to the problem, the TB germ is changing and new, drug-resistant strains have been found in 28 countries on 6 continents, including the U.S. The Stop Tuberculosis Now Act of 2007 requires the President to make TB prevention, treatment and elimination a priority. This act authorizes the President to increase aid to the World Health Organization through USAID specifically for TB strategies against these drug-resistant strains and to support affected countries, also increasing appropriations for CDCP and TB programs.

This legislation addresses the need abroad, but we also still need more interest here in the states. That is why I introduced The Comprehensive TB Elimination Act (H.R. 1532) earlier this year to confront that exact problem. In 2005, more than 14,000 people had TB in the U.S., including over 1500 cases in Texas. There also is an estimated 10 to 15 million people in the U.S. with latent TB, approximately 10 percent of which will go on to develop active TB. In the face of this problem, the standard method for diagnosis is more than 100 years and isn't adequately effective in testing children or those also infected with HIV/AIDS. The newest class of anti-TB drugs is 40 years old. The current drug- resistant strains that we know of are nearly untreatable with the drugs available today.

These facts highlight the obvious need for TB research and development of active attempts not only to control the problem, but decrease the threat and hopefully eradicate it completely. The Comprehensive Tuberculosis Elimination Act (H.R. 1532) will do that at home and The Stop Tuberculosis Now Act of 2007 (H.R. 1567) will do that abroad. I urge my colleagues' to join me in supporting this legislation.

Mr. ENGEL. Mr. Speaker, we have no further speakers, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ENGEL) that the House suspend the rules and pass the bill, H.R. 1567, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

EURASIA FOUNDATION ACT

Mr. ENGEL. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2949) to authorize grants to the Eurasia Foundation, and for other purposes, as amended.

(1) There has been established in the District of Columbia a private, nonprofit corporation known as the Eurasia Foundation (hereafter in this Act referred to as the "Foundation"), which is not an agency or establishment of the United States Government.

(2) In recognition of the valuable contributions of the Foundation to long-range United States foreign policy interests, the United States Government has, through the United States Agency for International Development and the Department of State, provided financial support for the Foundation.

(3) It is in the interest of the United States, and the further strengthening of cooperation with the countries of Eurasia, to establish a more permanent mechanism for United States Government financial support for the ongoing activities of the Foundation, while preserving the independent character of the Foundation.

(b) PURPOSES.—The purposes of the Foundation are—

(1) to promote civil society, private enterprise, and sound public administration and policy in the countries of Eurasia and in lending encouragement and assistance to citizens of such countries in their own efforts to develop more open, just, and democratic societies;

(2) to strengthen indigenous institutions that foster national development, constructive social change, equitable economic growth, and cooperative international relationships that are fully consistent with and supportive of long-term United States interests with respect to the countries of Eurasia; and

(3) to conduct programs in response to initiatives in the countries of Eurasia that would be difficult or impossible for an official United States entity, and, as a result of its position in the countries of Eurasia, to respond quickly and flexibly to meet new opportunities.

(2) notwithstanding the Foundation's distinguished record of performance, organizations that seek competitive grants typically perform in a more transparent and effective manner; and

(3) to the maximum extent possible, the Foundation should seek competitive grants to supplement appropriations from the United States Government, and at least 20 percent of the funding received in each fiscal year by the Foundation should be from non-United States Government sources to ensure continued strong performance of the Foundation.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. ENGEL) and the gentleman from Arkansas (Mr. BOOZMAN) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. ENGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ENGEL. Mr. Speaker, I rise in strong support of this bill, and I yield myself as much time as I may consume.

Let me first thank my good friend and colleague, the chairman of the Europe Subcommittee, Mr. WEXLER from Florida, for introducing this important bill.

The Eurasia Foundation has been a key U.S. government partner in the ongoing effort to promote democracy, expand economic opportunities, and facilitate government reform in countries that formerly comprised the Soviet Union.

Created in 1992 with bipartisan support, the Eurasia Foundation has invested over $360 million in Russia, the Caucasus, and Central Asia in programs that have complemented United States goals for participatory government and active citizenry in this region.

In addition, the Eurasia Foundation has been able to leverage significant private sector funding, in main part due to the annual funding support from the U.S. Government.

This bill seeks to enhance those efforts by recognizing the Eurasia Foundation as a distinct and independent entity that could continue to raise private capital while under a U.S. Government authorization.

Vital work remains unfinished in this part of the world. It is clear that political and economic stability in Eurasia will have a direct impact on the security of the United States.

For these reasons, it's imperative that we continue to support programs such as those conducted by the Eurasia Foundation.

I strongly support this legislation and encourage my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I may consume.

The Eurasia Foundation has reportedly done some good work over the past few years of the region of the former Soviet Union. Because the aid programs for the countries of that region from which the foundation has received its funding are now closing down, the issue before us is whether that foundation should be authorized to continue to receive funds directly from the U.S. in order to continue its democracy promotion work independently. I suspect that for many of us in this House the answer would be yes.

Just as we have had an Asia foundation, it is possible to see the work of funding this kind of foundation to do democracy promotion in Eurasia.

□ 1430

The passage of this bill, H.R. 2949, would help ensure that funding.

At the request of Members from our side of the aisle and the Foreign Affairs Committee, this bill has been amended in committee to try to address a significant problem that is not directly related to the Eurasia Foundation but that is an issue of importance to the wise use of our United States Government funds if they are appropriated to the foundation under this bill in the future.

Independent of the Eurasia Foundation, our United States Government-funded Enterprise Fund in Russia, the major state of that region, is closing down and is seeking to use the hundreds of millions of dollars from the sale of its assets to fund democracy promotion, civil society and rule-of-law programs in Russia, as well as economic reform efforts.

At the same time, we have democracy promotion programs under way across Russia and the rest of the region, through the National Endowment for Democracy, the National Democratic Institute, and the International Republican Institute.

So there is obviously a possibility that duplications of efforts will take place unless this Congress finds ways to ensure that it doesn't. We don't want to see U.S. Government-funded organizations compete to do the same kinds of activities if that leads to duplication and waste, and the democracy promotion in that region is too important to see money wasted at a time when Russian President Putin and others are forcing their own brand of authoritarian government on their nations.

This measure has been amended in a way that seeks to mandate that any successor to the U.S. Government-funded Enterprise Fund in Russia has to reach an agreement with the Eurasia Foundation before it engages in any democracy promotion efforts in that country. Hopefully, that will eliminate duplication to some degree.

The bill, as amended, does not go as far as some of us would like, I must note. It does not address the similar situation that will arise in the Ukraine in the next few years when our U.S. Government-funded Enterprise Fund there closes down and seeks to set up its own successor foundation that may, once again, end up duplicating the work done by the Eurasia Foundation in the Ukraine.

It also does not address a completely separate question about how the assets of such U.S. Government-funded Enterprise Funds in Russia and Ukraine will be disposed of, an issue that involves hundreds of millions of dollars in U.S. taxpayer funds. It has been the practice to ensure that the taxpayers get back at least 50 percent of the funds held by such funds when they close down their operations.

There is an effort in the House-passed fiscal year 2008 foreign aid appropriations bill, however, to allow our fund in Russia not to turn back to our Treasury half of its assets. That would mean that the taxpayers would lose $160 million, or perhaps even more than that, depending on the value of the assets sold in the case of the Russia fund alone. Those are monies that might otherwise go to help fund other worthwhile programs.

Perhaps this is not the bill in which to debate that issue, and our efforts in committee to address it in this measure were unsuccessful. But I take this opportunity to point out that issue in the hopes that the administration will be supported by Congress in its efforts to follow current practice and ensure that our Treasury gets back that very significant sum of money.

Mr. WEXLER. Mr. Speaker, I rise in strong support of H.R. 2949, authorizing 15 million dollars in appropriations to the Eurasia Foundation for Fiscal Years 2008 and 2009. This legislation will enable the Eurasia Foundation—which has been operating in the former Soviet Union since 1992—to continue to engage at the highest level in democracy building, civil society promotion and private sector expansion.

I wish to thank Chairman LANTOS and Ranking Member ROS-LEHTINEN for their support of this legislation, as well as Congressman GALLEGLY who was the lead sponsor of this legislation in the 109th Congress. All of these Members have been tireless advocates for providing critical aid and support to former Soviet countries.

Mr. Speaker, this legislation comes at a critical time in our relations with Eurasian states that are still in political, economic and social transition following the collapse of the Soviet Union. It is also coming at a time when U.S. aid to the region is unconscionably shrinking. To this end, organizations such as the Eurasia Foundation are critical components of our strategy to remain engaged at governmental and non-governmental levels in a region that stretches from Armenia to Uzbekistan and from Ukraine to Kazakhstan.

This legislation recognizes the important work being done by the Eurasia Foundation and its efforts to promote civil society, public administration and rule of law—in a region of the world that needs America's attention, assistance and support. Passage of H.R. 2949 today will provide the Eurasia Foundation—a partner of the U.S.—the funds it needs to continue to issue thousands of grants and operate programs in Eurasia that have proven to be effective over fourteen years.

Again, I want to thank Chairman LANTOS and Ranking Member ROS-LEHTINEN for supporting this important legislation and urge my colleagues to vote in favor of this legislation when it comes to the floor for a vote.

Mr. BOOZMAN. Mr. Speaker, I yield back the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield back the balance of my time as well.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ENGEL) that the House suspend the rules and pass the bill, H.R. 2949, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

CONGRATULATING NICOLAS SARKOZY ON HIS ELECTION TO THE PRESIDENCY OF FRANCE

Mr. ENGEL. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 379) congratulating Nicolas Sarkozy on his election to the presidency of France, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 379

Whereas the Marquis de Lafayette and the people of France offered unparalleled friendship to the people of the United States in their pursuit of freedom and democracy during the American Revolution;

Whereas there are deep cultural ties between the American and French people, as exemplified by the large flow of visitors each year between the two nations, as well as extensive exchanges between United States and French academic institutions, museums, and sister cities;

Whereas the United States is France's 6th largest export market, and its top export market outside of the European Union, and for the United States, France is its 9th largest trading partner, and the United States is the largest foreign investor in France;

Whereas the United States and France are working together to solve important international crises;

Whereas Nicolas Sarkozy, upon winning the election to become the next President of France, said that the United States can count on France as a friend; and

Whereas the people of the United States support any effort by the Governments of France and the United States to maintain and grow a spirit of friendship and cooperation: Now, therefore, be it

Resolved, That the House of Representatives congratulates Mr. Nicolas Sarkozy on his election to the presidency of France and welcomes President Sarkozy on the occasion of his appearance before a Joint Meeting of Congress.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. ENGEL) and the gentleman from Arkansas (Mr. BOOZMAN) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. ENGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ENGEL. Mr. Speaker, I rise in strong support of this resolution and yield myself such time as I may consume.

I would first like to commend our distinguished colleague, the gentleman from Texas (Mr. POE), for introducing this important resolution that congratulates Mr. Sarkozy on being elected the next President of France.

Over two centuries ago, the people of France assisted the people of the United States in their pursuit of independence during the American Revolution. Since then, the U.S. and France have shared an extensive and mutually beneficial relationship. Today, the United States and France are major economic partners, with nearly $1 billion in trade taking place between the two countries each and every day.

France is the United States' ninth largest partner for trade in goods and sixth largest partner for trade and services. The United States and France are scientific and technical partners as well. Research institutions and private companies in both countries participate in extensive scientific collaboration on a wide range of issues, including computer development, biotechnology, and space exploration.

This spirit of cooperation also typifies the cultural exchange that takes place between American and French academic institutions, museums, and theatres. In light of our continued friendship between the people of the United States and France, we are honored that President Sarkozy will be appearing before a joint session of Congress this week on November 7, 2007.

I urge my colleagues to support this resolution, which congratulates Mr. Nicholas Sarkozy on his election to the presidency of France and welcomes President Sarkozy to Washington.

I might also add that it is especially nice that the leader of France has demonstrated time and time again that he has warm feelings towards the United States of America and is, indeed, a pro-American leader of France. The relations between the United States and France in the past several years has been a little frosty, and it's nice to see that those frosty relations have thawed. It's nice to see a leader of France who understands and wants to work with the United States and understands that we have a very close, long-standing relationship between our people.

I welcome President Sarkozy. I look forward to hearing him when he speaks before a joint session of the House and Congress later on this week. I think that this resolution is a fitting tribute to him, and I believe that the United States and France, under his leadership, will enjoy warm ties.

If I can think a bit about my French from grammar school, I could say, Vive la France.

Mr. Speaker, I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I may consume.

The great nation of France and the United States of America have a shared heritage of commitment to freedom and independence. From time to time, of course, we have made different choices or followed different paths in our commitment to the rule of law, human rights and democracy, but we in the United States are always grateful to have France's collaboration in advancing important foreign policy and security objectives. The newly elected President of France, Mr. Nicholas Sarkozy, is this week paying an official visit to Washington and will address a joint meeting of this Congress during his visit.

His visit prompts us to recall some of the expressions of support Mr. Sarkozy has offered to our country and some of the concrete steps he has, indeed, taken to join with the United States in addressing key issues of our day.

On the eve of the fifth anniversary of the September 11 attacks, then-French Interior Minister Nicholas Sarkozy traveled to New York City to demonstrate solidarity with the American people on that occasion. During his visit, Mr. Sarkozy paid tribute to New York City's Police and Fire Departments as part of the commemoration of the anniversary and noted as part of his remarks the following: "One thing is sure in the history of our two peoples, each time we faced a challenge, France was able to count on the United States of America."

He then presented to the New York Fire Department the French Medal of Honor, the very first time that the medal, the highest award for French firefighters, has been awarded to foreigners. By taking such actions, as both Minister of the Interior and now as the President of France, Mr. Sarkozy has won the appreciation of the American people.

I note that his attitude regarding the necessity of preventing Iran from achieving its nuclear ambitions, his expressed support for the nation of Israel and his praise for the United States as a land of opportunity are very much appreciated as well.

Mr. Speaker, we are glad to have France as an ally, and we hope to deepen the friendship and partnership that the United States and France have enjoyed so many times in the history of our two countries. As the cochair of the Congressional French Caucus, I believe that the resolution before us today helps send a message of continued friendship with the people of France while congratulating President Sarkozy on his election and welcoming him to the United States.

I ask all of my colleagues to join in supporting this very timely resolution.

I have one additional speaker.

Mr. ENGEL. Mr. Speaker, I would continue to reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield to the gentleman from California (Mr. DREIER) as much time as he may consume.

Mr. DREIER. I thank my good friend from Arkansas, the cochair of the U.S.-French Caucus, and appreciate his thoughtful remarks as well as the remarks of my friend from New York.

Mr. Speaker, I rise because I think it is really a great day that we are once again, after what could only be considered as somewhat of a hiatus in this institution, underscoring the importance of the relationship between the United States and France. It's very clear that there was a period of time when we were quite critical of France and, in fact, we all know that the sort of the politically correct thing to do was to engage in French bashing.

I always had a tough time with that myself. One of the reasons is that as we are here in this Chamber, the portrait just to my right is of the man who underwrote the American Revolution, Marquis de Lafayette. In fact, his portrait is the only portrait of a non-American that hangs anywhere in this great building, the U.S. Capitol.

For us to recognize, as my friend from Arkansas just has said in his remarks, the great new, renewed friendship with the election of President

Sarkozy between the United States and France is, I think, a great thing. I am very enthused about 11 o'clock Wednesday morning when we are in this very Chamber going to hear the words of France's new President.

As my friend said, for Nicholas Sarkozy, before he became President, when he was a minister on the fifth anniversary of September 11, to go to New York and demonstrate his solidarity with those who stood up to the terrorists and, again, his great assistance in working with us in supporting the State of Israel, in making sure that we do everything that we can to diminish the threat of the potential nuclear buildup in Iran; of course, the kinds of missions that Nicholas Sarkozy has embarked on most recently to return the hostages of many conflicts around is something that, I believe, is to be heralded. We just had the news this morning that President Sarkozy personally was able to see the return of, I think it was 7 nurses, who had been held hostage.

So his commitment to the cause of freedom and liberty, and I will say, yes, his underscoring the great importance of the relationship and the alliance between France and the United States of America is a great thing for us. I congratulate my colleagues for their support and urge everyone to support this resolution.

Mr. BOOZMAN. Mr. Speaker, I yield back the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ENGEL) that the House suspend the rules and agree to the resolution, H. Res. 379, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BOOZMAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

EXPRESSING CONCERN RELATING TO IRANIAN REGIME AND MAHMOUD AHMADINEJAD

Mr. ENGEL. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 435) expressing concern relating to the threatening behavior of the Iranian regime and its leader Mahmoud Ahmadinejad, and the activities of terrorist organizations sponsored by that regime in Latin America, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

Whereas the television station Telemundo interviewed residents of the tri-border region who said that "they're only waiting for an order to put bombs on their body and attack the United States";

GENERAL LEAVE

Mr. ENGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ENGEL. Mr. Speaker, I rise in support of this resolution and yield myself as much time as I may consume.

I want to thank the gentlemen from Florida, Mr. KLEIN and Mr. MACK, both active and valued members of the Subcommittee on the Western Hemisphere, which I chair, for their work on this timely and important resolution that raises awareness about Iran's growing foothold in the Western Hemisphere and its national security implications for all countries of this region.

This resolution is particularly valuable as it catalogues a series of facts and actions related to the growing presence of Iran south of our border.

Last month, immediately after his address to the United Nations General Assembly, Iranian President Ahmadinejad flew to Venezuela and Bolivia. This was his third trip the region this year. Mr. Ahmadinejad has used these trips to announce increased diplomatic cooperation and multilateral agreements on energy and industry.

Iranian involvement, Mr. Speaker, in Latin America is not new, as we all know. In 1994, Iran and its proxy terrorist group, Hezbollah, were involved in planning the bombing of the AMIA Jewish Cultural Center in Buenos Aires, where 85 people lost their lives in the bombing.

In fact, just last week I met with the U.S. Ambassador to Argentina, who updated me on Argentina's progress on the AMIA bombings.

Hezbollah remains operational in parts of Latin America, and they continue to fundraise for their global operations.

The United States must do everything we can to help Latin America crack down on terrorist groups in the region, both through joint military exercises and through legislation, giving to governments new tools to eliminate the terrorist threats.

I strongly urge passage of this timely resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I may consume.

I welcome the focus this bill places on the growing influence of Iran in Latin America. Because Iran is the leading state sponsor of terrorism, we dare not lose sight of its increasing presence and activities in the region, nor can we forget its past transgressions.

One year ago, Argentina's State Prosecutor concluded that the horrific 1994 AMIA bombing was "decided and organized by the highest leaders of the former government of Iran."

Yet, somehow the leader of Iran continues to be warmly received by many in the hemisphere. In fact, he has found much strength in his friendship formed with Hugo Chavez, Ahmadinejad's key ally in the region.

The implications of Iran's presence in Latin America are disconcerting in themselves. When partnered with the power of Venezuela's petroleum, it is truly a cause for alarm and concern.

Ahmadinejad has capitalized on his relationship with Chavez to inject his influence throughout the hemisphere, recently signing a cooperation agreement worth $1 billion with Bolivia, and is reportedly making plans to establish an embassy for the first time in Quito, Ecuador.

Furthermore, the disturbing alliance between Venezuela, Iran and Cuba cannot be ignored. The radical efforts of Ahmadinejad, Chavez and Castro to stir anti-U.S. resentment in the region and support for anti-American regimes across the hemisphere are an increasing and undeniable threat to our security. For this reason, we must remain vigilant in our attention to the hemisphere and be sincere in our efforts to strengthen our relationships with the nations of Latin America.

I commend the efforts being taken by the U.S. and our partners in Latin America to combat terrorist activities. However, we must recognize that if the U.S. is to support the efforts of our friends in the region, we must support them wholeheartedly. We cannot continue to send mixed signals. Denying free trade agreements with Colombia, while calling for increased cooperation on any front is not good, fair or effective policy.

I thank my colleague for introducing this measure and look forward to additional efforts by Congress to comprehensively support our security in the Western Hemisphere.

Again, I have one more speaker, Mr. ENGEL.

Mr. ENGEL. I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield as much time as he would like to the gentleman from California (Mr. DREIER).

Mr. DREIER. Mr. Speaker, I again thank my friend from Arkansas for yielding, and I thank the gentleman from New York for his very thoughtful remarks on this important resolution. I rise in strong support of it.

I think that both my friends from New York and Arkansas have underscored the grave concern that we have about Iran's entry into this hemisphere, and especially in the remarks offered by the gentleman from Arkansas, Mr. Speaker, he underscored this nexus which has been developed by Hugo Chavez in Caracas, Venezuela and Mahmoud Ahmadinejad.

Now, what is it that we have seen? Obviously there are a great deal of differences that exist when it comes to the vision that a Hugo Chavez would have and Mahmoud Ahmadinejad would have. But they have rallied around one particular point, and that is, virulent opposition to everything that the United States of America stands for. Both of them have been hypercritical of the United States and our policies and the cause of freedom, quite frankly, based on what we've seen in both countries.

The thing that is most troubling is the fact that Mr. Chavez has had this pattern of inviting Mr. Ahmadinejad into this hemisphere and, basically, continuing to promote the anti-American sentiment. And it is cause for concern, and I believe this resolution is very important.

Mr. Chavez took Mr. Ahmadinejad to the inauguration of Rafael Correa in Quito, Ecuador. And again, as my friend from Arkansas has just said, the prospect of an Iranian Embassy opening in Quito is something that's very troubling.

Similarly, he took him to meet with Evo Morales, the President of Bolivia, again, a very, very troubling sign. And I will say, quite frankly, I am even concerned about, while we've heralded the election that took place a week ago yesterday in Argentina, I do believe that there is reason for concern of the potential for this linkage there that exists. I think it's very exciting to see Cristina Kirchner become the President, succeeding her husband in Argentina, but I do believe that we need to remain very vigilant in looking at this linkage between Hugo Chavez, Mahmoud Ahmadinejad and others within this hemisphere.

I would also like to laud my colleague from Arkansas for underscoring the importance of continuing to build our economic alliances with those countries in the hemisphere that are committed to political pluralism, the development of democratic institutions, the rule of law and self-determination.

We are on the verge, this week, we're going to be addressing the issue of a U.S.-Peru free trade agreement. We also have on the horizon, as we all know, in this hemisphere both the Panama and the Colombia free trade agreements.

And so I will say, Mr. Speaker, I think this resolution is very timely. I congratulate my friends for underscoring the importance of this. And I hope that a by-product of it will be the recognition that working with our allies in this region to develop even stronger economic ties should be the next step for us to take.

Again, I urge strong support of this resolution.

Mr. MACK. Mr. Speaker, I rise today to express my support for House Resolution 435, concerning Iran's growing influence in Latin America.

I also want to thank my colleague from Florida, Congressman RON KLEIN, for all of his hard work on this resolution.

He is passionate about Latin America and it has been a pleasure to work with you to get this important resolution to the floor today.

This resolution, which has garnered wide, bi-partisan support, formally expresses what many of us have known for quite some time: Iran's growing ties and meddling in Latin America is a grave concern for us all.

There is no doubt that Iran has given strategic, financial, logistical, and tactical support and safe haven to terrorists groups such as Hezbollah and others.

And, according to military leaders at U.S. Southern Command, there is no doubt that Islamic terrorist groups, such as Hezbollah, have infiltrated indigenous groups throughout significant areas of Latin America in order to develop terrorist networks throughout the region.

Of particular concern to me is the growing and burgeoning friendship between Iran's Mahmoud Ahmadinejad and Venezuelan President Hugo Chavez.

Iran, in my opinion, is seeking to do in Venezuela what the former Soviet Union did in Cuba: establish a base of operations in the Western Hemisphere in order to foment hatred and instability throughout the region.

This should cause great alarm for us all.

But this problem is bigger than Iran and Venezuela alone.

For far too long we have ignored growing unrest and loss of freedoms and the foundations for democracy throughout Latin America.

I have publicly and privately urged this administration and Congress to embrace our allies and do more throughout the region.

Our neglect has allowed leaders such as President Chavez to whip up opposition to the United States.

And further neglect, should we not act now to support our friends in the region, will allow Iran and others to continue to grow their terrorist networks throughout Latin America.

Mr. Speaker, I urge all of my colleagues to support this important resolution.

Mr. KLEIN of Florida. Mr. Speaker, I rise in support of H. Res. 435, a resolution that I authored with my friend, Mr. MACK.

This resolution expresses the concern of the House of Representatives about the growing national security implications of Iran's relationships with countries in the Western Hemisphere.

Iranian President Mahmoud Ahmadinejad has visited Latin America three times in the past year, and has signed agreements with several countries in the region worth billions of dollars. This is a strategic move on his part to build capabilities in our neighborhood.

On one side of the word, Iran continues to make progress on its nuclear program. And, on this side of the world, Iran has tried to sway leaders into supporting this dangerous agenda. And so far, his strategy is gaining momentum, which is extremely alarming.

Iranian involvement in Latin America is particularly concerning, especially considering Iran's history in places like Argentina. This week, Interpol, the world's law enforcement agency, will consider whether to uphold the arrest warrants for five Iranians and one Lebanese who planned and executed the 1994 bombing of the AMIA Jewish community center. Argentines are still waiting for justice to be served against those responsible, and Hizbollah and Iran are the lead suspects.

I also remain concerned about Hizbollah in our hemisphere as it relates to fundraising in the tri-border area, and other places. In fact, just last month, Admiral Jim Stavreedees, head of the U.S. Southern Command wrote, "We consider Latin America and the Caribbean as being highly likely bases for future terrorist threats to the U.S. and others."

The region has seen some progress, with new anti-terrorism legislation and increased counter-terrorism efforts. But, we all have a long way to go. Eliminating the threat of terrorism and its state sponsors is not just in the best interest of the United States. The countries in our hemisphere will be safer. The United States and Central and Latin America have an aligned interest.

I hope that this resolution is seen as a signal that the United States is willing to help our friends in Central and Latin America make their countries safer and free from terrorism.

Mr. BOOZMAN. Mr. Speaker, having no further speakers, I yield back the balance of my time.

Mr. ENGEL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ENGEL) that the House suspend the rules and agree to the resolution, H. Res. 435, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

RECOGNIZING THE CLOSE RELATIONSHIP BETWEEN THE UNITED STATES AND THE REPUBLIC OF SAN MARINO

Mr. ENGEL. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 236) recognizing the close relationship between the United States and the Republic of San Marino, as amended.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 236

Whereas the Republic of San Marino is the oldest republic in the world;

Whereas the Republic of San Marino was founded by those fleeing the religious persecution of the Roman Empire, and has adhered to the principles of tolerance and individual liberty throughout its history;

Whereas the United States and the Republic of San Marino have long held close ties based on common interests and common values;

Whereas the special bond between the Republic of San Marino and the United States was first expressed nearly a century and a half ago in an exchange of letters between President Abraham Lincoln and the Captains Regent of San Marino;

Whereas President Lincoln expressed in his letter his deep respect for the Republic of San Marino as "one of the most honored in all of history" and took encouragement from its example that a "government founded on republican principles is capable of being so administered as to be secure and enduring";

Whereas the Republic of San Marino has been a steadfast ally of the United States in many international organizations, such as the United Nations and the International Monetary Fund;

Whereas the Republic of San Marino has been a close collaborator on a number of key economic issues, such as the protection of intellectual property;

Whereas the Republic of San Marino has been a close collaborator in the fight against terrorism, including efforts to combat international terrorist financing;

Whereas through its chairmanship of the Committee of Ministers of the Council of Europe, the Republic of San Marino has worked to promote inter-religious and inter-cultural dialogue;

Whereas earlier this year, the United States and the Republic of San Marino upgraded their diplomatic relations to ambassador-level, and exchanged the first bilateral Ambassadors in our history;

Whereas Paolo Rondelli, the first Ambassador Extraordinary and Plenipotentiary of the Republic of San Marino to the United States, presented his credentials to President Bush at a ceremony at the White House on July 25, 2007; and

Whereas the Honorable Ronald P. Spogli presented credentials to the Captains Regent (co-Heads of State) in a ceremony in San Marino's Palazzo Publico on March 8, 2007: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) recognizes the close relationship between the United States and the Republic of San Marino;

(2) expresses its deep gratitude to the Republic of San Marino for its close collaboration and support in issues of critical importance to our economic and national security interests; and

(3) commemorates the first bilateral exchange of Ambassadors in the history of our long relationship.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. ENGEL) and the gentleman from Arkansas (Mr. BOOZMAN) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. ENGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ENGEL. Mr. Speaker, I rise in strong support of this resolution and yield myself as much time as I may consume.

I would like to thank my good friend and colleague, the gentleman from California (Mr. DREIER), for introducing this resolution that recognizes a small but important friend of the United States.

It is often said, Mr. Speaker, that good things come in small packages, and in the case of San Marino, this is certainly true. San Marino is the third smallest country in Europe, only Vatican City and Monaco being smaller.

San Marino, which is home to 29,000 inhabitants in a territory one-third the size of the District of Columbia, attracts several million visitors a year. The tourist industry makes up over 50 percent of the country's GDP.

San Marino is said to be the oldest republic in the world. It was founded in 301 A.D. by Marinus of Rab, a Christian fleeing from religious persecution by the Roman Emperor.

Its constitution, which dates back to 1600, is the world's oldest written constitution, and remains in effect to this day.

San Marino has been an active player at the international level, including the United Nations, International Monetary Fund, and Council of Europe. Through these bodies, San Marino has sought to promote interreligious and intercultural dialogue, as well as the protection of intellectual property.

San Marino has also cultivated a close friendship with the United States based on our shared values and interests. This relationship was first expressed when President Abraham Lincoln exchanged letters with the Captains Regent of San Marino.

Nearly 150 years after these letters were sent, the United States and San Marino upgraded their bilateral relations to include the first ever exchange of ambassadors. President Bush welcomed San Marino's new Ambassador, Paulo Rondelli, during a White House ceremony on July 25. U.S. Ambassador Ronald Spogli presented his credentials to the Captains Regent in San Marino's Palazzo Publico on March 8. I welcome this development in our bilateral relations, and look forward to ever closer cooperation with our European ally.

I urge my colleagues to join me in supporting this resolution which recognizes the close relationship between our two countries, expresses gratitude to San Marino for its friendship and support, and commemorates the first ever exchange of ambassadors.

Mr. Speaker, I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let's take a moment to recognize an ally whose relationship with the United States certainly exceeds its size. Completely surrounded by Italy, the European microstate of San Marino has the smallest population of all the members of the Council of Europe. Yet, San Marino has made a strong ally of the United States, most notably within a number of international institutions, including the United Nations and the International Monetary Fund. In fact, the U.S. and San Marino have collaborated closely on several key issues such as combating international terrorist financing and protecting intellectual property rights.

Moreover, San Marino has been a leader in promoting interreligious and intercultural dialogue within the European Union. The value of our relationship was marked earlier this year by the first exchange of ambassadors between the U.S. and San Marino.

I, therefore, ask my colleagues to join me in supporting Ranking Member DREIER's H. Con. Res. 236, recognizing our close relationship with the Republic of San Marino.

Mr. ENGEL. Mr. Speaker, I reserve my time.

Mr. BOOZMAN. Mr. Speaker, I yield to the author of this resolution, the gentleman from California (Mr. DREIER) such time as he may consume.

Mr. DREIER. Mr. Speaker, I want to thank my colleagues, the gentleman from New York (Mr. ENGEL) and the gentleman from Arkansas (Mr. BOOZMAN), for their very thoughtful remarks on this resolution.

I also want to join in expressing my appreciation to my fellow Californian, the distinguished Chair of the Committee on Foreign Affairs, Mr. LANTOS and, of course, the ranking Republican, Ms. ROS-LEHTINEN.

□ 1500

I think both of the sets of remarks offered underscore something that is extraordinarily important, and that is that we thank and express our appreciation to our allies, no matter how large or how small their populations, in dealing with the challenges that we face internationally.

But I will say I have a particular interest in the world's oldest republic because I am privileged to represent its namesake, the City of San Marino, California.

I had the privilege, Mr. Speaker, of leading the first bipartisan delegation to what, as my friend from New York correctly said, is the oldest republic on the face of the Earth, and we took this delegation back in 2004 to the Republic of San Marino. I had the opportunity to present to the Captains Regent, as was said, the co-heads of their state, of their government, a proclamation passed by the San Marino City Council expressing its greetings and appreciation for the friendship that they share.

San Marino, California, was named at its founding for the republic on the Adriatic Sea and displays in its seal Mount Titano, where the republic was first established. Today, like its namesake, San Marino, California, is known for its beauty. It is home to the Huntington Library and Gardens, one of Southern California's great treasures. But the relationship with the Republic of San Marino reaches far beyond beauty. It's my hope that this resolution will help to make us all more aware of the great bond the United States shares with this small, but very important, country.

The Republic of San Marino, as was said, was founded over 17 centuries ago by those who were fleeing the religious persecution of the Roman Empire. They founded a community based on liberty and tolerance 1,300 years before the Pilgrims would land on Plymouth Rock on a similar endeavor. Since those early days of the republic, San Marino has continued its strong tradition of democracy and freedom.

Our close bond, based on a shared commitment to these principles, was first, as my friend from New York said, recorded in history through an exchange of letters between President Lincoln and the Captains Regent. President Lincoln expressed in that letter his deep respect for the Republic of San Marino, saying, "as one of the most honored in all of world history."

Mr. Speaker, he took encouragement from its example that any "government founded on republican principles is capable of being so administered as to be secure and enduring." Those are the words of President Lincoln. Now, as our Nation faced a great crisis, Lincoln looked to the example of San Marino, which had endured for so long while standing with its small "r" republican foundation.

As the United States has faced new crises in the 20th and 21st centuries, it has again relied upon San Marino for its steadfast support within international institutions such as the

United Nations. San Marino has been a close collaborator on a number of critical issues like combating international terrorist financing. This year we have honored their friendship and support, as was said, by elevating our relationship to the ambassadorial level.

My good friend and fellow Californian Ron Spogli, as the first U.S. Ambassador to the Republic of San Marino, presented his credentials to the Captains Regent in a ceremony in San Marino's Palazzo Publico on March 8 of 2007. And as my friend from New York said, the exchange was completed when on July 25 of this year, Paolo Rondelli, the first Ambassador of the Republic of San Marino to the United States, presented his credentials to President Bush at the White House.

Mr. Speaker, today we honor this exchange of ambassadors, and we honor the close relationship between our Nation and the world's oldest republic and the fundamental values that bind us.

And, again, I thank my colleagues for their support of this resolution.

Mr. BOOZMAN. Mr. Speaker, I urge adoption of Congressman DREIER's resolution.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ENGEL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ENGEL) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 236, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BOOZMAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mr. ENGEL) and the gentleman from Arkansas (Mr. BOOZMAN) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. ENGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the resolution under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ENGEL. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of this resolution.

I first want to thank the gentleman from California, our colleague Mr. HONDA, for this resolution congratulating the Ethiopian people for their nation's second millennium. I also commend America's large Ethiopian community, the Committee for the Celebration of the Ethiopian Millennium, and Ambassador Samuel Assefa and his staff for making the celebration in Washington, DC, a truly memorable event. That celebration brought together the finest Ethiopian artists, musicians, scientists, and scholars from around the world for the purpose of making the event not just a social festival but also a learning experience.

Mr. Speaker, Ethiopia is one of the most fascinating countries in the world. It is a country of great antiquity with a culture and tradition dating back thousands of years. The most recent humanoid remains yet discovered, known as "Lucy," were found in Ethiopia.

Modern-day Ethiopia is a multiethnic country with some 83 languages spoken, most of which belong to four main language groups. It is a multireligious country where for centuries, Christians, Muslims, and Jews have co-existed.

In a region of the country known as Kaffa, Ethiopians in the ninth century discovered what we now know as coffee. Ethiopians still practice a traditional ceremony around coffee, a significant social event of the day for family and community.

Today Ethiopia is an emerging democracy, a leader on the continent of Africa, and a friend to the United States. Ethiopia stood by the American people on September 11 and has continued to cooperate with the U.S. Government and the world community in the fight against terrorism.

I wish to express our gratitude and to extend our best wishes to the people of Ethiopia as their nation observes the beginning of its third millennium.

Mr. Speaker, I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I may consume.

I am pleased to rise in support of H. Res. 550, which congratulates the people of Ethiopia as they celebrate their second millennium. This commends Ethiopia's contribution to peace and stability on the African continent and recognizes the longstanding relationship between Ethiopia and the United States.

While much of the world celebrated the dawn of the second millennium in January of 2000, Ethiopia recognizes the Coptic calendar, which falls 7 years behind our own. This practice is in keeping with Ethiopia's long and rich cultural heritage.

Ethiopia is the only country on the African continent never to have been colonized and, in fact, played an important role in the liberation struggles of numerous other African countries during the colonial period. It continues to play an important role in promoting peace across the continent, both as a major supporter of peacekeeping efforts and the home of the African Union.

Ethiopia has served as a model of religious toleration in the region, a place where Christianity, Judaism, and Islam have co-existed peacefully for centuries. Ethiopia also is home to countless historical artifacts and world heritage sites, including the earliest known hominid, Lucy; and the medieval rock churches of Lalibela, which have been recognized as a wonder of the world. All of these facts have contributed to the strong sense of pride and nationalism that Ethiopians enjoy today.

And while Ethiopia continues to face significant challenges in terms of security and democratic and economic development, this is a country that has served as one of the strongest allies of the United States in the region. The value of our relationship should not be taken lightly.

I was particularly pleased to learn that Prime Minister Meles, Ethiopia's Prime Minister, kicked off the celebrations in September by granting amnesty to thousands of political prisoners, including a number of opposition leaders.

It is my hope that the spirit of rebirth and reconciliation engendered in the celebration will continue to take root as Ethiopia embarks on a second millennium.

So I rise to congratulate our friends in Ethiopia on this joyous occasion, and I urge my colleagues to support this measure.

With that, Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we have now concluded six bills that came out of the Foreign Affairs Committee, and I just want to congratulate all the sponsors of the bills and the members of the committee. You can see these bills were all supported with strong bipartisan support. But I want to especially commend the staffs on both sides of the aisle for working very, very hard in getting these bills through.

The very first bill we did was H.R. 1567, which was my bill, the Stop TB Now Act of 2007. And I want to especially commend my legislative director, Emily Gibbons, who was so responsible for this bill. If it wasn't for her, I don't think this bill would have come to its fruition. She was tenacious and was extraordinarily helpful to me in passing this legislation, and this legislation is clearly also a tribute to her fine work.

So I wanted to mention that, and I wanted to again thank my colleague from Arkansas.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in strong support of H. Res. 550, congratulating the people of Ethiopia on the second millennium of Ethiopia, and for other purposes, introduced by my distinguished colleague from California, Representative MICHAEL HONDA. This important legislation recognizes the significant efforts made by the government of Ethiopia to move forward in peace and stability, and it encourages our continued relationship.

Ethiopia is currently on the road to democracy. This is a path that should be paved with civil and political discourse, peaceful transitions of power, and respect for human rights. By necessity, the achievement of a modern democracy requires the implementation of electoral reforms, the separation of powers in the government, and the establishment of a truly independent judiciary. These are the founding principles of our American Republic, and I have seen firsthand the progress on the path to democracy Ethiopia has made since the brutal dictatorship of Mengistu Haile Mariam was brought down in 1991. I strongly believe that the United States should do all it can to support this transition, including bolstering civil society and speaking out when fundamental human rights are violated.

Ethiopia has a long and proud history. It is the cradle of mankind, as illustrated by Lucy, also known as Dinkinesh (Amharic for "you are wonderful"), which is the nearly complete hominid skeleton discovered by archaeologists in the Awash Valley of Ethiopia on November 30, 1974. Lucy is estimated to have lived 3.2 million years ago and has redefined science's understanding of human evolution. I was happy to work with Texas State Senator Rodney Ellis, Ethiopian Ambassador Samuel Assefa, and the Houston Museum of Natural Science to bring Lucy to Houston, which is one of only nine American cities and the only city in Texas to host the exhibit. The bones are currently on display in Houston, and will be until April 2008.

Ethiopia is also the oldest independent nation in Africa, has never been colonized, and is home to the African Union. Despite Ethiopia's rich history, however, recent decades have brought hardship and suffering to Ethiopia's people, through military conflict, natural disasters, and a military dictatorship.

For over a decade in the House of Representatives, and prior to that in the Houston city council, I have been an outspoken and unwavering advocate for the country of Ethiopia and its people, both in Ethiopia and in the diaspora. Following in the legendary footsteps of my predecessor, Mickey Leland, who died attempting to alleviate the starvation faced by Ethiopia's innocent populace, I have been a champion of increasing foreign aid to, political, economic, and social cooperation with, and improving human rights in Ethiopia.

Mr. Speaker, I believe this legislation is extremely important in encouraging the progressive strides of the government of Ethiopia. This legislation not only congratulates the people of Ethiopia on Ethiopia's second millennium and their long and rich history, but also commends Ethiopia's contribution to peace and stability on the African continent through its role in the creation of the Organization of African Unity. It further recognizes the longstanding Ethiopia-U.S. relationship and commends the organizers of the second millennium celebrations both in Ethiopia and the United States.

I strongly urge my colleagues to join me in supporting this important legislation.

Mr. ENGEL. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ENGEL) that the House suspend the rules and agree to the resolution, H. Res. 550, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

NATIONAL HEROES CREDIT PROTECTION ACT

Mr. FILNER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 513) to amend the Servicemembers Civil Relief Act to enhance the protection of credit ratings of active duty military personnel who are activated for military service, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 513

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

"(2) develop and maintain procedures for the referral to other such agencies of any military service deployment explanation received by the agency; and

"(7) The term 'qualifying account' means an account that was opened by a servicemember before the date on which the servicemember was deployed outside the continental United States in support of a contingency operation, but only with respect to obligations incurred before such date.".

(b) CLERICAL AMENDMENT.—The table of contents in section 1(b) of such Act is amended by inserting after the item relating to section 207 the following new item:

"Sec. 208. Protection of credit ratings of certain servicemembers.".

(c) MILITARY SERVICE DEPLOYMENT EXPLANATION NOT TO AFFECT CERTAIN FUTURE TRANSACTIONS.—Section 108 of such Act (50 U.S.C. App. 518) is amended in the matter preceding paragraph (1), by inserting after "liability of that servicemember" the following: ", or the inclusion of a military service deployment explanation in a file of the servicemember at a consumer reporting agency pursuant to section 208,".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. FILNER) and the gentleman from Florida (Mr. STEARNS) each will control 20 minutes.

The Chair recognizes the gentleman from California.

Mr. FILNER. Mr. Speaker, I yield myself such time as I may consume.

As we approach Veterans Day in another week, it is important that we, as Members of the House, not just give our speeches and ride in the parades on Veterans Day but we actually do things that will help our veterans, say thank you for their service, and make sure they get the benefits that are due them when they return home, and that they also avoid pitfalls that come about because they are serving their Nation abroad. There are many examples of this, and we are going to correct a few today.

The first and most important, I think, is to assure that when our service men and women are abroad, when they are in active duty, that they do not face credit problems as a result of that duty if they miss some payments on bills back home. Our colleague, Mr. BRADY from Philadelphia, chairman also of our House Administration Committee, has looked at this problem and has come up with a solution.

Mr. Speaker. I rise in strong support of H.R. 513, as amended.

I would like to thank my distinguished colleague, Congressman ROBERT BRADY of Pennsylvania, for crafting this important bill to help protect our Nations veterans. I'd also like to thank the Subcommittee on Economic Opportunity Chairwoman, STEPHANIE HERSETH SANDLIN, and Ranking Member JOHN BOOZMAN for the strong bipartisan leadership they demonstrated in working on this legislation.

When called to duty, servicemembers across our Nation leave their loved ones, school, and work behind.

Unfortunately as we are witnessing today, some of these servicemembers are returning to letters of delinquency from credit lenders and credit bureaus due to their extended military service abroad.

Mr. Speaker, we must honor our servicemembers' sacrifice by providing them with the resources and financial security needed to protect what they have left behind, so that they may have the peace of mind that their financial interests are protected while serving our Nation.

Mr. Speaker, as you know, a credit score impacts all aspects of your life. It represents you as a consumer and indicates to the potential lender if you are trustworthy of repaying your debt. It also determines whether you will qualify for a good interest for a home loan, buying a car, or even school loans.

H.R. 513, as amended, would protect these men and women while they are at war, by providing an explanation in their credit report. This explanation would be generated by a consumer reporting agency, and delivered in conjunction with a consumer report or credit score.

It will indicate in the consumer report, or credit score, that the consumer was adversely affected during a period in which the servicemember was on active duty outside the continental United States in support of a contingency operation.

To qualify, a person would have to be a member of the National Guard or Reserve, have the account open prior to deployment, and served a specifying period of service of no less than 180 days. By including a military service deployment explanation, any person who requests the credit score or consumer report of the servicemember will be informed of a potential reason of non-payment or missed payments.

Currently, there is no credit protection offered to the men and women in the National Guard and Reserve.

Furthermore, this legislation alleviates the servicemembers' concerns over negative financial implications of their deployment.

Regardless of your view on the war, we all stand united in caring for our veterans. I urge all my colleagues to join me in support of H.R. 513, as amended.

Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. BRADY) to explain how this bill will help our active duty forces when they return home.

☐ 1515

Mr. BRADY of Pennsylvania. I thank the gentleman for yielding me time.

I rise in support of H.R. 513, the National Heroes Credit Protection Act.

Just after the start of the Iraq war, I met a lady who served in Operation Desert Storm. This young lady told me that problems in notifying her creditors of deployment had almost cost her to lose her home. Her problems are all too common. This simple piece of legislation was written with those heroes in mind.

H.R. 513 would amend the Servicemembers Civil Relief Act to require credit reporting agencies, when asked, to include a notation in a consumer report or credit score for reserved members of the U.S. Armed Forces when they are called up or deployed. The bill would also require consumer reporting agencies to refer the explanations to other consumer reporting agencies.

More than 300,000 guardsmen and reservists have been called up since September 11. They are doing more missions and activations with fewer personnel. They shouldn't have to worry about protecting their credit while they're keeping us safe.

This bill is revenue neutral. CBO estimates that it would have no significant effect on the Federal budget and minimal costs to the private sector. My staff have discussed this report with representatives of the credit and credit reporting agencies. They have been helpful in suggesting ways to improve the bill's protection for our troops and support the purpose and intent of the measure.

This legislation protects creditors by continuing to require repayment of a soldier's debts, but it provides important new protections for our troops by making it easier for them to take advantage of rights they already have.

I know that Chairman FILNER and Chairwoman HERSETH SANDLIN have worked closely with the minority on their committee, and we are happy to include provisions suggested by the minority. I want to thank them as well as Ranking Members BUYER and BOOZMAN.

Mr. Speaker, the bill will make a major difference in the lives of our heroes and their families. I urge all my colleagues to support the National Heroes Credit Protection Act.

Mr. FILNER. Mr. Speaker, I reserve the balance of my time.

Mr. STEARNS. Mr. Speaker, I think we've talked about this bill, and it's a very good bill. I thought I might take from my colleagues and just read the summary of it just to remind ourselves that H.R. 513 is to amend the Servicemembers Civil Relief Act to enhance the protection of credit ratings of active duty military personnel who are activated for military service.

And the question usually comes up on some of these bills, what do they cost. Mr. BRADY, the gentleman from Pennsylvania, talked about that. So we have a Congressional Budget Office cost estimate that I would share with my colleagues, and it says, "The requirements imposed on credit reporting agencies would be private sector mandates as defined in the Unfunded Mandates Reform Act, the UMRA. CBO suspects the cost of the mandates would be minimal and unlikely to exceed the threshold for private sector mandates established in the UMRA."

So, I think we have a bill that we can all support. So, obviously on this side, we do support it.

The bill, as amended, will improve the protections of the Servicemembers Civil Relief Act by providing the opportunity for certain servicemembers experiencing financial difficulties, while deployed, to simply request that their credit record be annotated to reflect simply that deployment. It also requires the credit industry to take such deployment into consideration.

This new protection, my colleagues, would cover credit accounts opened before the servicemember was deployed. While these protections are important, it is also critical that Members understand that such an annotation may have adverse effects on their credit rating, despite all the existing laws prohibiting such actions. Therefore, my colleagues, the bill also requires the National Credit Bureau to inform applicants of that potential in writing.

So, Mr. Speaker, I think that, in terms of its strong support for veterans, and in their case, when they're deployed, I urge support for the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. FILNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this war in Iraq has involved our National Guard and Reserve units to an extent that has never before been the case. And many of our laws simply do not reflect the new force structure that you see in Iraq. And that is what we, as a committee, are working to change. For example, the National Guard and Reserve units, even if they are in active duty, as they are in Iraq, are not eligible for the same benefits from the GI Bill as our active duty troops. We are going to change that. We are going to change a number of things. And I thank Mr. BRADY, the gentleman from Philadelphia, for making sure that the Guard and Reserve groups have the protections in law that our active duty troops already have. We must protect their jobs, their credit ratings, and their quality of life as they are away from home in active duty supporting our Nation.

The laws have not kept up with this force structure. This is one of the ways that we're going to change that. So we're going to make sure that when they come home, they are recognized and not penalized for their active duty.

Mr. STEARNS. Mr. Speaker, I yield back the balance of my time.

GENERAL LEAVE

Mr. FILNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 513, as amended.

The SPEAKER pro tempore (Mr. RUPPERSBERGER). Is there objection to the request of the gentleman from California?

There was no objection.

Mr. FILNER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. FILNER) that the House suspend the rules and pass the bill, H.R. 513, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. FILNER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

EXPRESSING SUPPORT FOR DESIGNATION OF A NATIONAL VETERANS HISTORY PROJECT WEEK

Mr. FILNER. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 770) expressing support for designation of a National Veterans History Project Week to encourage public participation in a nationwide project that collects and preserves the stories of the men and women who served our nation in times of war and conflict.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 770

Whereas the Veterans History Project was established by a unanimous vote of the United States Congress to collect and preserve the wartime stories of American veterans;

Whereas Congress charged the American Folklife Center at the Library of Congress to undertake the Veterans History Project and to engage the public in the creation of a collection of oral histories that would be a lasting tribute to individual veterans and an abundant resource for scholars;

Whereas there are 17,000,000 wartime veterans in America whose stories can educate people of all ages about important moments and events in the history of the United States and the world and provide instructive narratives that illuminate the meanings of "service", "sacrifice", "citizenship", and "democracy";

Whereas the Veterans History Project relies on a corps of volunteer interviewers, partner organizations, and an array of civic minded institutions nationwide who interview veterans according to the guidelines it provides;

Whereas increasing public participation in the Veterans History Project will increase the number of oral histories that can be collected and preserved and increase the number of veterans it so honors; and

Whereas "National Veterans Awareness Week" commendably preceded this resolution in the years 2005 and 2006: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes "National Veterans Awareness Week";

(2) supports the designation of a "National Veterans History Project Week";

(3) calls on the people of the United States to interview at least one veteran in their families or communities according to guidelines provided by the Veterans History Project; and

(4) encourages local, State, and national organizations along with Federal, State, city and county governmental institutions to participate in support of the effort to document, preserve, and honor the service of American wartime veterans.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. FILNER) and the gentleman from Florida (Mr. STEARNS) each will control 20 minutes.

The Chair recognizes the gentleman from California.

Mr. FILNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the author of this legislation, the gentleman from Nevada (Mr. PORTER), who will speak on his resolution in a few minutes.

I want to point out that Abraham Lincoln, during his address at Gettysburg, said that "the world will little note, nor long remember, what we say here, but it can never forget what they did here." In that spirit, and to make sure that people will long remember what was done, Congress created the Veterans History Project in the year 2000 with unanimous support from this body.

The Project directed the Library of Congress to establish a national archives for the collection and preservation of videotaped oral histories of our veterans, as well as the copying of letters written during their time of service and diaries they kept. So there is a national repository of this very important part of our Nation's history. This worthwhile investment of time and resources is a gift that can be given for generations and centuries to come. The goal of the project is to capture the personal stories of our Nation's heroes so our children and their children can more fully understand the history of this century.

For a lot of reasons, we find that our Nation's heroes, when they come back from combat, do not even let their families know exactly what happened. They feel like they were just doing their job or don't want to bring up some memories, and so those stories will go with them to their grave. But with this project, we can tap into the stories of more than 24 million veterans who are still alive today, including 3 million from World War II, who are leaving us at the rate of more than 1,000 per day.

It is important that these stories are told, and more important that these stories are told from the mouths of those that were on the front lines and participated firsthand as history was made.

This oral history project requires the cooperation of volunteers across the country to get not only the veterans to come forward to offer their stories, but also the family members and friends to capture their accounts.

So, H. Res. 770 calls on the people of the United States to interview at least one veteran in their families or communities according to guidelines provided by the Veterans History Project. It also encourages local, State and national organizations to participate in support of the effort to document, preserve and honor the service of American wartime heroes.

As chairman of the Veterans' Committee in the House of Representatives, I have had the opportunity and the honor to hear the many accounts from these veterans. I hear the sense of pride that comes along with the duty of defending this country. I know that my father served in World War II, but I never fully got the stories, I don't think, that he had in his memory, and I wish we had captured before he died.

So, I encourage all Americans to reach out to their veterans, thank them and their families for their amazing sacrifice, learn more about their great contributions to our Nation, and gain the wisdom of their personal stories of our Nation's history. Each and every one of us should learn more about the American Folk Life Center at the Library of Congress because their staff is always glad to work with researchers and volunteers to expand their library of these stories.

Volunteers and participants become historians themselves. They can collect audio and video recordings, create a collection of recordings to be available for public use, or collect written materials relevant to personal histories of war veterans.

So, on this Veterans Day, let us, again, do more than just give speeches and ride in parades. Let's join and take the time to show the gratitude that we have to these veterans by asking them to relate their stories for the preservation of history.

Mr. Speaker, I would reserve the balance of my time.

Mr. STEARNS. Mr. Speaker, I yield myself such time as I may consume.

I thought again I would just say that H. Res. 770, summarized, it says "it encourages public participation in a nationwide project that collects and preserves the stories of the men and women who served our Nation in times of war and conflict."

This is very appropriate, and we're coming to Veterans Day. And I commend JON PORTER from Nevada for sponsoring this bill, and I urge my colleagues to support it.

In 2000, Congress unanimously voted to create the Veterans History Project as part of the American Folk Life Center at the Library of Congress. Since its creation, the Veterans History Project has collected thousands of veterans' accounts of their military experiences. My staff has actually gone down to my district with a tape recorder and was participating, recording these histories with our veterans. Each of these accounts is easily accessible on the history project's Web site and will be an invaluable source for future generations.

While there are several ways to record a veteran's history, the most common form of record in this project is through oral interviews. That is what my staff did. They would stand at the town square, and we notified through the newspapers that these individuals could come in. They would come in, and through a tape recorded oral interview, we were able to do that. These oral interviews are conducted all across the country by volunteer interviewers. These narrations provide a firsthand account of the courageous and patriotic sacrifices of our Nation's veterans. That is why, Mr. Speaker, I am happy that this resolution calls on all Americans to take time to interview at least one veteran in their family or their community; just a simple request. With over 17 million wartime veterans living in the United States, we have our work cut out for us. And my colleagues, I think it's imperative that we increase participation in the program while members of these great generations are still among us. And we don't have long to do so.

So, I want to thank Chairman FILNER and the ranking member, Mr. BUYER, for bringing this important resolution to the floor. I urge all of my colleagues to support it.

With that, Mr. Speaker, I recognize the author of the bill, the gentleman from Nevada (Mr. PORTER), for 3 minutes.

□ 1530

Mr. PORTER. Mr. Speaker, I rise today in support of H. Res. 770, which recognizes the goals and ideals of National Veterans History Project Week. This resolution will help highlight the ongoing efforts of the American Folklife Center in the Library of Congress to collect and to document the personal histories of our Nation's greatest heroes, our Nation's veterans. I can't imagine a better way to recognize these heroes. They are amongst us. They are in our families. They are in our neighborhoods. They need some encouragement, but I can't think of a better way.

National Veterans History Project Week will focus the Nation's attention on the importance of veterans' history. The goal is to honor veterans and to ensure that their stories are available for future generations. We owe every freedom we have to the service and, of course, the sacrifice of America's veterans and their families. Their experience teaches us about the power of the human spirit and the realities of war. It is incumbent upon us to ensure that their history is honored and preserved.

This resolution calls upon the people of the U.S. to interview at least one veteran from their families or their communities, following the guidelines set forth by the Veterans History Project, encourages local, State and national organizations, along with the Federal, State and local government institutions to document, to preserve and honor the service of American wartime veterans.

I only wish my father, who passed away in 1995 and was a World War II veteran, had the opportunity to share his history and the past experiences that he had. As a matter of fact, my father was very cautious in even talking about his experiences in the war until the final weeks of his life. I truly only wish that he had had this opportunity to share with his grandchildren.

The Veterans History Project relies on the efforts of volunteer interviewers from the veterans service organizations, libraries, historical societies, museums, retirement communities, professional associations, governmental agencies, universities, high school students, boy scouts, girl scouts, and families to contribute to its collection which currently has more than 50,000 individuals.

Yes, veterans need some encouragement. They want to be asked. I and a number of individuals that we have interviewed and we have placed their history into the CONGRESSIONAL RECORD, many of them served our Nation's wars from World War II, Jack Mates, Martin Schlesinger, and Jack Watson. From the Korean War, Johnnie Phillips, from Vietnam, Johnny Kinder, Chuck Baker, and Stephen Long. From the Cold War, Al O'Donnell from Las Vegas. And from Iraq and Afghanistan, Henry Lujan.

I am proud to be an original sponsor of this bipartisan resolution. While this issue is not and shall not be forgotten, we need to continue reminding our veterans that we need and we appreciate who they are and what they have done. I believe that preserving the histories of our Nation's veterans is of the utmost importance for us as Americans. This is an appropriate way to honor our veterans and the volunteers to seek and collect those wonderful stories of heroism.

I would also like to thank my friend and colleague, Mr. KIND from Wisconsin, for his strong support.

Mr. STEARNS. Mr. Speaker, just a few words, and then I think we will yield back the balance of our time.

The ranking member, Mr. BUYER, of the Veterans Committee also has recorded his experience when he was the United States captain in the Gulf War in this project. So I think it is appropriate to bring that to our colleagues' attention.

I conclude about the bill, in addition to encouraging veterans, it encourages the local government, the State and national organizations, along with the Federal, State, city and county government institutions, to encourage, to participate in support of this effort to document, preserve, and honor the service of American wartime veterans.

Mr. Speaker, I yield back the balance of our time.

Mr. FILNER. Mr. Speaker, I thank the gentleman from Nevada (Mr. PORTER) for bringing us this resolution. As an historian myself who has worked with oral histories, I know how important it is professionally and, as he said, also personally. So I urge everyone to support this bill.

GENERAL LEAVE

Mr. FILNER. Mr. Speaker, I also ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H. Res. 770.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. KIND. Mr. Speaker, I rise today in support of House Resolution 770 which encourages the designation of a National Veterans History Project Week. This resolution encourages increased public participation in the Veterans History Project.

As you may know, the Veterans History Project collects and saves the stories of America's veterans who have bravely served this country from World War I to today's conflicts in Iraq and Afghanistan. This project provides Americans an important way to honor our soldiers: by preserving the story of their service, in their own words, for the use and benefit of future generations.

In 2000, I authored and Congress unanimously passed legislation creating the Veterans History Project. Since its beginning, the project has collected more than 50,000 stories and documents. In addition, the Veterans History Project was honored by Harvard University as one of the finalists for the Innovations in American Government Award competition in 2005.

We must get the word out to all veterans about this important initiative. We have millions of wartime veterans and civilians in this country and their stories are a reminder to us all of the costs of the freedoms we so deeply cherish. Let this resolution also serve as a reminder to the distinguished members of this body that the decisions we make here in Washington have a far-reaching impact in the homes and communities all over this great country. We must support these brave men and women whom we send out to the front lines to fight for the freedoms we are privileged to enjoy.

Since the beginning of our Nation, the soldiers, sailors, airmen, and marines of the armed forces have been called on to risk their lives and fight for the ideals that make America great. Regardless of what one thinks about the wars that they fought in, or the wisdom of our involvement, all Americans must agree that the men and women of our armed forces have responded to the call of their country and performed with honor and dignity. War veterans and the civilians who have supported them all across this Nation have stepped forward once again, this time answering the call of civic duty by recording their stories and contributing personal documents for the Veterans History Project. Their participation ensures that their accounts are recorded and preserved, becoming a part of this Nation's memory and history.

The volume of materials already collected by the Veterans History Project is a testament to its success. I believe, however, we can do even better. By passing this resolution today, we can encourage more participation in this important program and ensure that this vital collection of American history continues to grow even further.

Capturing the stories of our war veterans is more important now than ever before. Every day, America loses over 1,000 of our aging World War II veterans and with them, their firsthand accounts of that war. As our country faces new challenges and threats in foreign policy, we must not forget the events and lessons of World War II. That is why it is imperative that we capture the stories and personal histories of those veterans today before it is too late. The Veterans History Project is instrumental in accomplishing this important goal.

I call upon all members of this body to publicize and promote the Veterans History Project in their own districts and communities. I cannot think of a better way to honor our veterans than by trying to preserve as many of their memories and stories as possible.

I commend the gentleman from Nevada for introducing this resolution and I strongly urge my colleagues for their support.

Mr. FILNER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. FILNER) that the House suspend the rules and agree to the resolution, H. Res. 770.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

EXPRESSING SUPPORT FOR THE GOALS OF VETERANS EDUCATE TODAY'S STUDENTS (VETS) DAY

Mr. FILNER. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 60) expressing support for the goals of Veterans Educate Today's Students (VETS) Day, and for other purposes.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

H. CON. RES. 60

Whereas the United States has, in the course of its history, fought in many wars and conflicts to defend freedom and protect the interests of the Nation;

Whereas millions of men and women have served the Nation in time of need as members of the Armed Forces;

Whereas the service of veterans has been vital to the Nation, and the sacrifices made by veterans and their families should not be forgotten with the passage of time;

Whereas children throughout the Nation would benefit from programs that provide education about veterans and that instill a patriotic appreciation of the sacrifices made by veterans to defend freedom and to protect the interests of the Nation;

Whereas efforts are being made throughout the Nation to devote November 10, or another date as may be designated, to an event known as Veterans Educate Today's Students Day; and

Whereas schools that participate in Veterans Educate Today's Students Day set aside a portion of the school day for the study, recognition, and appreciation of veterans: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) recognizes the importance of veterans to the United States;

(2) expresses support for the goals of Veterans Educate Today's Students Day;

(3) urges teachers, civic leaders, and veterans to carry out programs that educate children about the service of veterans and the sacrifices made by veterans and their families; and

(4) encourages the people of the United States to participate in local and national activities recognizing Veterans Educate Today's Students Day and other events that foster education about the importance of veterans to the Nation.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. FILNER) and the gentleman from Florida (Mr. STEARNS) each will control 20 minutes.

The Chair recognizes the gentleman from California.

Mr. FILNER. Mr. Speaker, I yield myself such time as I may consume.

Again, I am proud to bring to the floor another motion, another resolution, another action that will help us understand and better appreciate the contributions of our veterans from many wars. I want to thank Congressman FRANK PALLONE from New Jersey, who offers this resolution, and it will recognize our Nation's veterans for their sacrifice to our country.

Currently, brave men and women who are fighting in missions throughout the world, including in Iraq and Afghanistan, do not have an exact avenue to let us know what has occurred or let us know how to appreciate or spread that appreciation to others in our society. This resolution will provide an avenue to educate our children about the sacrifice our servicemembers and their families are making.

Veterans Educate Today's Students Day will designate November 10 as VETS Day that would call for teachers, civic leaders, and veterans to carry out programs to educate children about the service of our Nation's veterans and their sacrifice. VETS Day is a day students can be taught to appreciate that because of our Nation's veterans we are able to enjoy the many freedoms that we take for granted. VETS Day should be the day we highlight veterans' service, American freedoms and pass on to our children our American ideals. This is why I urge all my colleagues to join me in support of H. Con. Res. 60.

Mr. Speaker, I reserve the balance of my time.

Mr. STEARNS. Mr. Speaker, I yield myself such time as I may consume.

This is a simple resolution, just basically expressing support for the goals of Veterans Educate Today's Students Day, and for other purposes. I believe that in this case it will be November 10, the day before Veterans Day, when this will be celebrated. So obviously we need to support this resolution. It expresses the sense of the support of Congress for the goals of this VETS Day.

It is noticeable that we recognize the importance of educating the children of today about this sacrificial history of veterans and their families so close to the national day of honor for those same veterans, which is on November 11, Veterans Day.

My colleagues, the number of veterans today is not as large as it used to be. The children in schools are less likely to have a parent, uncle or aunt who served in the military who could tell them about their experiences. My father served in Iwo Jima. He could tell me about his experience during that Pacific war. He has since been deceased. But I remember him talking about it and how much education it was for me. So those from the Greatest Generation who have passed from this world leave behind a legacy of courage, loyalty, and honor. This legacy was picked up and continued by the next generation of veterans from the Korean War, the Vietnam War, military engagements in Haiti and Kosovo, Gulf War I, and today in the current conflicts in Afghanistan and in Iraq.

So, Mr. Speaker, to set aside a specific day to educate our children about the sacrifice, the gallantry of our Nation's heroes demonstrates the importance of that service. It is because of them that we still have the freedom in this Chamber and the freedom we cherish today.

Now, some school districts are already taking steps in this direction by inviting veterans to speak in their classrooms on Veterans Day and share their stories with the students and all the teachers. We should encourage this worthwhile educational activity in more schools across the Nation.

Mr. Speaker, I encourage my colleagues to join me in support of H. Con. Res. 60.

Mr. Speaker, I reserve the balance of my time.

Mr. FILNER. Mr. Speaker, I am honored to yield such time as he may consume to the author of this resolution, a man who fights for veterans in his district and around the Nation, Mr. PALLONE from New Jersey.

Mr. PALLONE. Thank you, Mr. Chairman.

Mr. Speaker, as we approach Veterans Day on November 11 of this month, I want to say a few words about why I introduced House Concurrent Resolution 60 which, as you know, expresses support for the goals of Veterans Educate Today's Students Day, or VETS Day.

Throughout our Nation's history, millions of men and women have served the U.S. in times of need as members of the armed services, and these veterans and their families have made sacrifices that should not be forgotten with the passage of time. In the U.S., hundreds of memorials and monuments stand to honor those who have served in the armed services. While these tributes help remind Americans of the great sacrifices that were made to protect our freedoms, they can't educate today's youth the way actual veterans can.

The VETS Day essentially would urge teachers and civic leaders to organize events and forums where students can interact with America's veterans.

H. Con. Res. 60 would encourage schools to set aside a portion of the day in November to allow veterans to answer students' questions while conveying important stories and lessons about their service. I actually have participated in these kinds of programs in my own district, Mr. Speaker; and I know how valuable they can be.

At a time when the men and women of our armed services are in harm's way, we should be educating today's students on the sacrifices these brave men and women make every day. The children of our Nation will benefit from programs that provide education about veterans and instill a patriotic appreciation of the sacrifices made by veterans to defend freedom and protect the interests of our Nation.

Again, I think the most important thing is hearing firsthand accounts from veterans themselves, and that is the best way that students can better understand veterans' service and sacrifice. Again, I want to thank the chairman for his assistance and urge swift passage of this resolution.

Mr. STEARNS. Mr. Speaker, I will conclude by saying that obviously encouraging the people of the United States to participate in local and national activities, recognizing Veterans Educate Today's Students Day, or VETS Day, is something that we should remind all Americans about how important it is and realize that it not only fosters education of our youth, but it also provides the veterans an opportunity to explain things perhaps that no one has ever asked them or taken the time to say, what was it like? So in a way, it is an opportunity for them, as well as the students.

I urge adoption of this resolution.

Mr. Speaker, I yield back the balance of my time.

Mr. FILNER. Mr. Speaker, again I want to thank Mr. PALLONE for authoring this resolution. I know many of us who give speeches on Memorial Day and on Veterans Day note always that there are not many youth in the audience. And to bring these stories to our students, to our youth, is extremely important.

I ask unanimous support of this resolution.

GENERAL LEAVE

Mr. FILNER. Mr. Speaker, I would also ask unanimous consent that all

Members may have 5 legislative days in way to revise and extend their remarks and include extraneous material on House Concurrent Resolution 60.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. FILNER) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 60.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

RECOGNIZING THE CONTRIBUTIONS OF NATIVE AMERICAN VETERANS

Mr. FILNER. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 744) recognizing the contributions of Native American veterans and calling upon the President to issue a proclamation urging the people of the United States to observe a day in honor of Native American veterans.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 744

Whereas there are 195,871 Native American veterans in the United States;

Whereas Native Americans have participated for over 200 years in United States military actions;

Whereas the participation of Native Americans in the War of 1812, the Civil War, and the Spanish-America War was significant;

Whereas in World War I, it is estimated that more than 12,000 Native Americans served the United States Armed Forces;

Whereas more than 44,000 Native Americans served in the Armed Forces during World War II, in both the European and Pacific fronts, representing a substantial portion of the 350,000 Native Americans then living in the United States;

Whereas Native Americans fought in the Korean conflict, and more than 42,000 Native Americans fought in the Vietnam War, 90 percent of whom served as volunteers;

Whereas Native Americans also provided significant contributions in the military operations in Grenada and Panama and the Persian Gulf War in 1980s and 1990s; and

Whereas Native Americans should also be recognized for their participation in Operation Enduring Freedom and Operation Iraqi Freedom: Now, therefore, be it—

Resolved, That the House of Representatives—

(1) recognizes all Native American veterans who have served the Nation with honor, pride, devotion, wisdom and strength for serving their country and protecting their homeland; and

(2) calls upon the President to issue a proclamation urging the people of the United States to observe a day honoring Native American veterans with appropriate ceremonies and activities.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. FILNER) and the gentleman from Florida (Mr. STEARNS) each will control 20 minutes.

The Chair recognizes the gentleman from California.

Mr. FILNER. Mr. Speaker, I rise in strong support of this resolution to recognize our Native American veterans who have served and continue to serve this Nation with honor and with pride. I represent a county in California, San Diego, that has one of the largest numbers of Native American tribes in our Nation, and I have heard many of their stories. We know that Native Americans have participated with distinction in U.S. military actions for more than 200 years. Their courage, determination, and fighting spirit are well documented throughout our history.

It is well recognized, also, that Native Americans have the highest record of service per capita when compared to other ethnic groups. Presently, there are almost 200,000 Native American military veterans alive today. At least 18,000 of the 22,000 Native Americans currently in uniform have been deployed at least once to Iraq or Afghanistan as of July of this year.

Native Americans who volunteer for military service aspire to uphold their proud cultural tradition. This warrior tradition is a willingness to engage the enemy in battle. This characteristic has been clearly demonstrated by the courageous deeds of our Native Americans in combat. Five Native Americans have been among those soldiers who distinguished themselves by receiving the military's highest award, the Medal of Honor. This medal is given for military heroism "above and beyond the call of duty." These warriors exhibited extraordinary bravery in the face of the enemy and, in 2 cases, made the ultimate sacrifice for their country.

This House, led by the Committee on Veterans' Affairs, had the enormous privilege of naming 2 Veterans Affairs Medical Centers in honor of these heroes just last June. Charles George was a member of the Cherokee tribe from North Carolina and private first class in Korea when he was killed on November 30 of 1952. During battle, George threw himself upon a grenade and smothered it with his body. In doing so, he sacrificed his own life, but saved the lives of his comrades.

□ 1545

Ernest Childers was a member of the Creek Tribe from Oklahoma and a First Lieutenant with the 45th Infantry Division. He received a Medal of Honor for heroic action in 1943 when, up against machine gun fire, he and 8 men charged the enemy. Although suffering a broken foot in this assault, Childers ordered covering fire and advanced up the hill, single-handedly killing the snipers, silencing 2 machine gun nests, and capturing an enemy mortar observer.

The warrior tradition is exemplified by strength, honor, pride, devotion, and wisdom. These qualities are a perfect fit with our Nation's proud military traditions.

I urge the people of our Nation, I urge the Members of this Congress, to make sure we have a day honoring our proud and brave Native American veterans.

Mr. Speaker, I reserve the balance of my time.

Mr. STEARNS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this is an important resolution, H. Res. 744, obviously, recognizing the contributions of Native American veterans is important, and asking the President to issue a proclamation urging the people of the United States to also observe a day of honor for Native American veterans. My colleague from California has talked about this. It's interesting; we recognize the contributions of Native American veterans to our society and, of course, by so doing, we are recognizing their achievements, their singular achievements, if I might add. I compliment the resolution that was introduced by my good friend, the gentlewoman from New Mexico (Mrs. WILSON), and the gentlewoman from South Dakota (Ms. HERSETH SANDLIN) for their support and also their prescience for bringing this bill forward.

We have Veterans Day less than a week away, my colleagues. I think it's important this body recognize one often overlooked group of veterans. These veterans have made numerous contributions to the United States military, not just recently in World War II, but as far back as the War of 1812. Currently, there are 195,000 Native American veterans who live in the United States. According to the U.S. Army Center of Military History Web site, there have been 24 Native American Medal of Honor recipients since the Civil War. Let me just repeat that. There have been, according to the U.S. Army Center of Military History Web site, there have been 24 Native American Medal of Honor recipients.

During World War II, we know about the Navajo Code Talkers, whose ranks in the Pacific Theater exceeded 400 during World War II, and in all 6 Marine divisions from 1942 to 1945. They were credited with saving thousands of lives and actually hastening the end of the war itself. At the time of the war, World War II, fewer than 30 non-Native speakers understood the Navajo's unwritten language. The size and simple complexity of the language made the code extremely difficult to comprehend, much less decipher. In fact, it was not until 1968 that the United States Government declassified the code. The Japanese never were able to decode this code. So that is a compliment to their accomplishments with the Navajo Code Talkers. In fact, there has been a movie made on it.

In Congress, we have begun to recognize the extraordinary achievement from veterans such as these. This past June, the House passed H.R. 366. This was introduced by Congressman John Sullivan of Oklahoma, naming the Department of Veterans Affairs Outpatient Clinic in Tulsa, Oklahoma, as the Ernest Childers Department of Veterans Affairs Outpatient Clinic. This man was a Native American from the Creek nation, who was awarded the Medal of Honor for his courageous actions during World War II.

In addition, the House passed H.R. 2546, which names the Asheville VA Medical Center after another brave Native American, PFC Charles George. He also was honored with the Medal of Honor posthumously for his actions in the Korean War. H.R. 2546 was passed last week by the Senate and now is awaiting the President's signature.

So, Mr. Speaker, it is because of the gallant actions of our Native American veterans like those of Lieutenant Colonel Childers and PFC George, as well as the bravery and fortitude of the Navajo Code Talkers who served with the Marines, that I and other Members are proud to sponsor this resolution. We urge its passage. It actually recognizes the many contributions throughout the history of our Nation of our Native American veterans in protecting the freedoms that we enjoy in this country today. So I encourage all Americans, take time to recognize the sacrifice and achievement of these veterans.

Ms. HERSETH SANDLIN. Mr. Speaker, I rise in strong support of H. Res. 744, which recognizes the contributions of Native American veterans and calls upon the president to issue a day in honor of their service.

As an original cosponsor of H.R. 744, I would like to thank Representative WILSON for introducing this important resolution to honor the service of our nation's Native American Veterans. I also would like to recognize Veterans' Affairs Committee Chairman BOB FILNER and Ranking Member STEVE BUYER for their strong leadership and unwavering dedication to Native American veterans and for working to quickly move this resolution to the House floor.

For more than 200 years Native Americans have served in the military—at a higher rate than any other ethnic group. Now, in Iraq and Afghanistan, a new generation of Native Americans serve their country. These young men and women, such as Private First Class Sheldon Hawk Eagle, from Eagle Butte, South Dakota and Corporal Brett Lundstrom from Pine Ridge, South Dakota, who were both killed while serving in Iraq, join a long line of Native Americans that have answered the call to duty on behalf of their country. Their service to our nation must never be forgotten.

To honor the sacrifice of countless Native American veterans, like Private First Class Hawk Eagle and Corporal Lundstrom, I encourage my colleagues to support final passage of this resolution.

Mr. UDALL of New Mexico. Mr. Speaker, I rise today in support of House Resolution 744 and in honor of this country's Native American veterans.

For well over 200 years, Native Americans have provided military and strategic service to the U.S., acting as patriotic soldiers and standing side-by-side their fellow citizens in defense of our country. There are nearly 200,000 Native American veterans in the U.S. today, including members of every single tribe and pueblo. In New Mexico, there are countless stories of heroic Native American men and women serving in uniform.

I am proud to have sponsored earlier legislation to honor Native American veterans. During the 106th Congress, I introduced a bill to honor the Navajo Code Talkers with the Congressional Gold Medal in honor of their dedicated service during World War II. These brave interpreters used their native tongue to carefully transmit confidential Allied messages regarding the movement and strategy of millions of fellow soldiers. Not once was their code broken. Sixty years after their service, these men were honored in the Capitol Rotunda with the Congressional Gold Medal.

This past Congress, I was privileged to sponsor a measure to allow Native American tribes to be eligible for grants to establish state veterans cemeteries on tribal land. This long overdue legislation ensures that those Native American veterans who desire to be buried at home will not have their final wishes denied. I was happy that it was passed and am encouraged that we will soon see the first state veterans cemetery locate on tribal land.

To date, 47 Native Americans have given their lives in Afghanistan and Iraq. We honor their memory and their sacrifice by ensuring the Native American veterans who return home and granted the respect they deserve. As we approach Veterans Day later this week, we must remember that Native American have served our nation with pride, and continue to put on the uniform with bravery, honor, and dignity. I urge all of my colleagues to thank all veterans for their service, and to recognize the considerable sacrifice given by our country's Native Americans.

Mrs. WILSON of New Mexico. Mr. Speaker, as the sponsor of H. Res. 744, I rise in strong support of this resolution and urge its passage. I want to thank Representative STEPHANIE HERSETH SANDLIN who is an original cosponsor of this resolution and who is a strong advocate for our veterans. I also want to thank Chairman BOB FILNER, who cosponsored the resolution and Ranking Member STEVE BUYER for his commitment to all veterans.

Earlier this year I met with some Native American veterans in my State. They expressed many concerns to me and were worried that all Native American Veterans had not been recognized for their service to their country.

On October 15, 2007, Congresswoman HERSETH SANDLIN and I introduced H. Res. 744, a resolution that recognizes the contributions of Native American veterans and calls upon the President of the United States to issue a proclamation urging the United States to observe a day in honor of Native American veterans.

Native Americans were participants in the War of 1812, the Civil War and the Spanish-American War. During World War I, 12,000 Native Americans served in the United States military and in World War II, more than 44,000 Native Americans served their country in both the European and Pacific fronts of the war. Native Americans also fought in the Korean conflict and the Vietnam war. In Operation Iraqi Freedom and Operation Enduring Freedom, Native Americans have made significant contributions.

Native American veterans should be recognized for their service in uniform. This resolution gives all Native American veterans the formal recognition they deserve for their sacrifices and contributions.

I have also introduced H.R. 4012, the Native American Language Assistance Act of 2007, a bill to assist VA hospitals and clinics that treat a large number of Native American patients. I urge my colleagues to cosponsor this legislation that will ensure that Native American veterans have access, delivery and follow-up of services at the VA.

The bill would require the Secretary of Veterans Affairs to carry out a program to make competitive grants to any VA medical facility that treats a high number of Native American veterans. The grants, up to $100,000 each, would provide interpreters or other language resources to improve access to, delivery of, and follow-up for medical services provided by the Department of Veterans Affairs.

I am concerned that Indian veterans are. not receiving adequate assistance and support for their care at our VA hospitals. This bill will provide help to those hospitals that treat high numbers of Indians. By providing our VA hospitals with funding for language programs and outreach, we can better communicate to these veterans about what services and benefits are available to them and make sure they are getting the care and support they need.

Nationally, there are 195,871 Native American veterans. There are 11,929 Native American Veterans in New Mexico—3.1 percent of the entire American Indian veteran population.

I am grateful to all who serve their Nation and we as a Congress have a responsibility to ensure they receive the best possible care. In this war on terrorism, the greatest burdens have fallen on the shoulders of a relatively small number of Americans who have volunteered to take great risks on our behalf. Events over the last few years have made a new generation of Americans realize just how precious our freedoms really are. We owe our freedom fighters—past, present, and future—a debt of gratitude for their selflessness and sacrifice. I will continue to fight to ensure that our veterans get the benefits they were promised, the health care they deserve, and the recognition that our Nation owes them.

I support passage of this resolution.

Mr. SHULER. Mr. Speaker, I rise today in strong support of H. Res. 744, recognizing the contributions of Native American veterans. These veterans have served with courage, pride, and honor to protect this country and the freedoms we hold dear.

As we approach Veterans Day, it is imperative that we all remember and honor those who have sacrificed their lives and families for the safety and security of this Nation.

I am very pleased that Congress has passed my legislation that honors Private First Class Charles George, a Native American veteran that served in the Korean War. Pfc. George was a member of the Eastern Band of Cherokee Indians and was raised in the Birdtown community of the Qualla Boundary. He attended Cherokee Schools before enlisting in the U.S. Army and being sent to fight in the Korean War. Pfc. George left his home to fight for our Nation, but the young man did not return to our mountains.

On November 30th, 1952, while fighting in Korea, Private First Class George was killed in action. He died saving the lives of those around him. He was posthumously awarded the Congressional Medal of Honor for his actions during the Korean War.

The Department of Veterans Affairs Medical Center in Asheville, North Carolina will be renamed the "Charles George Department of Veterans Affairs Medical Center" at the end of this month to honor his actions and valor.

I ask my colleagues to join me in honoring Native American veterans for their valiant service on behalf of our Nation.

Mr. STEARNS. Mr. Speaker, I yield back the balance of my time.

Mr. FILNER. Mr. Speaker, I yield back the balance of my time.

PROVIDING FOR THE REAPPOINTMENT OF ROGER W. SANT AS A CITIZEN REGENT OF THE BOARD OF REGENTS OF THE SMITHSONIAN INSTITUTION

Mr. BRADY of Pennsylvania. Mr. Speaker, I move to suspend the rules and pass the Senate joint resolution (S.J. Res. 7) providing for the reappointment of Roger W. Sant as a citizen regent of the Board of Regents of the Smithsonian Institution.

The Clerk read the title of the Senate joint resolution.

The text of the Senate joint resolution is as follows:

S.J. RES. 7

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, in accordance with section 5581 of the Revised Statutes (20 U.S.C. 43), the vacancy on the Board of Regents of the Smithsonian Institution, in the class other than Members of Congress, occurring because of the expiration of the term of Roger W. Sant of Washington, D.C., is filled by the reappointment of Roger W. Sant, for a term of 6 years, effective October 25, 2007.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. BRADY) and the gentleman from Michigan (Mr. EHLERS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania.

GENERAL LEAVE

Mr. BRADY of Pennsylvania. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks in the RECORD and include extraneous matter.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. BRADY of Pennsylvania. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this joint resolution will reappoint Roger W. Sant to be a citizen regent of the Smithsonian Institution for a second 6-year term. The last few years have been very difficult ones for the Smithsonian. The aftermath of the September 11 attacks caused a significant drop in public attendance at the Smithsonian facilities, which has only recently begun to bounce back. Many believe the Institution has become too closely identified with donors and corporate sponsors of its buildings and activities, which threatens its reputation for independence.

Mr. Speaker, the House Administration Committee thought long and hard about whether it would be appropriate to replace some members of the Board of Regents. In prior years, the committee had essentially rubber-stamped appointment recommendations from the board, and candidates seeking a second term routinely received it. This year, two citizens regents are seeking reappointment, including Mr. Sant, and two additional seats will be filled by new members who have who not yet been recommended to us. So there is a process of natural rotation.

We ultimately decided to give the board more time to implement the promising reforms recommended both by its Governance Committee and the Independent Review Committee. The committee expects the board to appoint a secretary who will be fully responsive to the board and protect the values the American public has expected of the Smithsonian.

As part of the process of considering this joint resolution, committee members met with Mr. Sant 2 weeks ago to hear his views about recent events in the Smithsonian and assessment of the pace of the ongoing reforms at the Institution. We were cautiously optimistic that the board is on the right track. Mr. Sant has broad understanding of the Smithsonian operation and its past flaws, and we believe he can make a useful contribution to the restructuring of the board.

He also informed the committee that he is not running for the new and enhanced position of chairman of the board, which is expected to be created January 2008 as one of the principal reform recommendations. We think the new occupant of this position should bring a fresh perspective of the management of the board's affairs.

For these reasons, we have decided to recommend Mr. Sant's reappointment to the board for a second 6-year term and urge his approval by the House.

Mr. Speaker, I reserve the balance of my time.

Mr. EHLERS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as ranking member of the House Administration Committee, I am pleased to support S.J. Res. 7, a bill that allows for the reappointment of Roger Sant as a citizen regent of the Smithsonian Institution.

Several other members of the Committee on House Administration and I had the opportunity recently to meet with Mr. Sant and discuss the road ahead for the Smithsonian in this time of change and opportunity, and also to discuss the mistakes of the past. Mr. Sant assured me that, with his reappointment, he would do his part to ensure that the "Nation's attic," which is the common name for the Smithsonian, is not being looted by those who have put personal gain above the interests of the Institution.

In the last Congress, this committee conducted an oversight hearing into Smithsonian Business Ventures in what would turn out to be a prophetic concern about the museum's financial operations. While my colleague Chairman BRADY and and I are committed to continuing vigorous oversight of the Smithsonian, an effective and engaged Board of Regents is an essential first line of defense in ensuring that we do not experience a repeat of those problems that plagued the immediate past president of the Smithsonian.

I am confident, based on the statements made by Mr. Sant, that he is committed to earning back the trust of the Congress and the American people regarding the board's role of safeguarding our Nation's most treasured assets and ensuring proper governance of the Smithsonian and all its different enterprises.

I appreciate the leadership given by the chairman of this committee, Mr.

BRADY, and the way he has taken hold of this issue, among others, and I am pleased to join him in approving this resolution.

Ms. MATSUI. Mr. Speaker, I rise today in strong support of the reappointment of Roger Sant to the Smithsonian Board of Regents.

I am a new member of the Board of Regents since January. And although the past eleven months have been challenging for the Smithsonian . . . this period of transition will result in a new Secretary, an improved governance structure and a stronger relationship with Congress and the American people. I believe that much of the changes can be attributed to Mr. Sant's leadership during this time.

In March, Mr. Sant led the effort to create both an Independent Review Committee, headed by Chuck Bowsher, formerly the Comptroller General of the United States . . . and an internal Governance Committee, on which I serve.

As a result of both of the committees' work, the Regents adopted a comprehensive set of governance reforms, comprised of 25 specific changes in June, 2007. In broad terms, these reforms will ensure that the Board of Regents and the Secretary of the Smithsonian work together in a constructive partnership, and will improve the Smithsonian's culture of accountability and transparency. To date, eleven of these 25 reforms have been implemented in whole or in part, and the remainder will be implemented by May, 2008.

Additionally, Mr. Sant serves on the new Facilities Revitalization Committee. The Committee is addressing shortfalls in funding for Smithsonian facilities revitalization and maintenance, estimated to require $1 billion above current funding levels over the next ten years. The Regents are hard at work developing a plan to fund this shortfall and return the Smithsonian's museums and other facilities to the condition expected by the American public.

My colleagues and I on the Board of Regents are fully committed to ensuring that the Institution operates at the highest level of integrity and transparency. Mr. Sant has been involved at every level of reform and has done a tremendous amount of work, as have my fellow Regents. The Board is guided by the same principals that guide our work in Congress . . . operating as a public trust . . . following only the highest ethical standards . . . and conducting business with an increased ethos of transparency.

The Board's accomplishments during these few months are notable, as are its plans for future improvements. The Board of Regents is currently conducting a search for a new Secretary, and is still in the midst of a thorough and thoughtful process to reform its governance structure. We have the momentum and the dedication from the Board Members and need to be able to continue our work.

I applaud Chairman BRADY and Ranking Member EHLERS for moving Mr. Sant's reappointment at this time. And for their continued commitment to the betterment of the Institution.

Let me conclude by saying that each year, over 25 million visitors come to the Smithsonian. The National Collections, containing over 135 million items, are cared for, displayed, and made available for research by this beloved institution.

The Smithsonian faces many challenges as it pursues its mission for "the increase and diffusion of knowledge." While the Board works to find a new Secretary, institute governance reforms and address facilities needs . . . the Smithsonian continues to mount world-class exhibitions and conduct cutting-edge research in science, history, art, and culture.

The Smithsonian offers a uniquely American experience to all of our constituents when they come to the nation's capitol. Mr. Sant's dedication and commitment to the Smithsonian benefit us all.

I would urge my colleagues to support his reappointment to ensure that all of the reforms that he has helped to implement are executed in a prompt and timely manner. I thank him for his leadership during this period of transition.

Mr. EHLERS. Mr. Speaker, I yield back the balance of my time.

Mr. BRADY of Pennsylvania. Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. BRADY) that the House suspend the rules and pass the Senate joint resolution, S.J. Res. 7.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate joint resolution was passed.

A motion to reconsider was laid on the table.

PROVIDING TECHNICAL CORRECTIONS TO PUBLIC LAW 109–116

Mr. BRADY of Pennsylvania. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2206) to provide technical corrections to Public Law 109–116 (2 U.S.C. 2131a note) to extend the time period for the Joint Committee on the Library to enter into an agreement to obtain a statue of Rosa Parks, and for other purposes.

The Clerk read the title of the Senate bill.

The text of the Senate bill is as follows:

S. 2206

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ROSA PARKS STATUE.

(a) IN GENERAL.—Section 1(a) of Public Law 109–116 (2 U.S.C. 2131a note) is amended by—

(1) striking "2 years" and inserting "4 years"; and

(2) adding at the end the following: "The Joint Committee may authorize the Architect of the Capitol to enter into the agreement and related contracts required under this subsection on its behalf, under such terms and conditions as the Joint Committee may require.".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect as if included in the enactment of Public Law 109–116.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania (Mr. BRADY) and the gentleman from Michigan (Mr. EHLERS) each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania.

GENERAL LEAVE

Mr. BRADY of Pennsylvania. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks in the RECORD and include extraneous matter.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. BRADY of Pennsylvania. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill will provide technical corrections to Public Law 109–116 to extend the time period for the Joint Committee on the Library to obtain a statue honoring Rosa Parks, and for other purposes.

In November of 2005, this House passed Public Law 109–116, then H.R. 4145, which provided for the placement of a statue of Rosa Parks in the National Statuary Hall. Due to technical drafting errors, we failed to provide the Architect of the Capitol with the resources necessary to acquire such a statue.

The original bill set a deadline of December 1, 2007, for acquisition of the statue, and S. 2206 would extend the deadline for 2 years. Further, the bill authorizes the Architect of the Capitol to enter into any agreement or contract necessary to have the statue rendered.

It is imperative that we honor the memory of Rosa Parks in Statuary Hall as soon as possible. The House is in agreement today, as it was 2 years ago, that this is long overdue. Her contributions to the civil rights movement and to the historical record of this country deserve to be reflected in Statuary Hall.

Mr. Speaker, I reserve the balance of my time.

☐ 1600

Mr. EHLERS. Mr. Speaker, I rise in support of S. 2206, which will extend the time period for the Joint Committee on the Library to enter into an agreement to obtain a statue of Rosa Parks.

A tireless advocate for equality, Rosa Parks is best remembered for a single act of civil disobedience that would change the history of our Nation. By refusing to move to the back of the bus in her native Alabama, to make room for white passengers, Mrs. Parks ignited passions on both sides of the civil rights movement. This led to the Montgomery bus boycott and helped to elevate the work of another great American of the civil rights movement, Dr. Martin Luther King, Jr., as well as an august Member of this body, Congressman John Lewis, who also participated and played a leading role in some of the demonstrations of that time.

Even in her passing, Rosa Parks was a trailblazer as the first woman and only the second African American to lie in state in the Capitol rotunda.

I am especially pleased to speak on her behalf since she decided to take up residence in Michigan for the remainder of her life after she had gone through various demonstrations and activities surrounding her initial act of defiance. She was a distinguished citizen of our State, and in fact we recently dedicated a new park in downtown Grand Rapids in her honor. It is named the Rosa Parks Park.

By extending the time period to procure a statue of Mrs. Parks, this bill will allow the Joint Committee on the Library to delegate the administration of the statue selection process to the Architect of the Capitol. The JCL was not designed for, nor is it equipped, to run an arts competition. Allowing the Architect of the Capitol to administer the competition process will ensure that the statue selected is a fitting tribute to this marvelous civil rights pioneer.

Mr. Speaker, I reserve the balance of my time.

Mr. BRADY of Pennsylvania. Mr. Speaker, I would like to recognize the gentleman from Illinois (Mr. JACKSON) for such time as he may consume.

Mr. JACKSON of Illinois. Mr. Speaker, I rise in support of S. 2206, a bill that simply provides technical corrections to Public Law 109–116.

This legislation authorizes the Architect of the Capitol to enter into agreement on behalf of the Joint Committee of the Library to acquire a statue of Mrs. Rosa Parks. It also extends the time period for that agreement by 2 years.

In 2005, it was my privilege to introduce this very important legislation with Senator JOHN KERRY and Senator MITCH MCCONNELL of the other body to honor the life and work of the late Mrs. Rosa Parks by placing a statue in National Statuary Hall.

Everyone knows the story of how Mrs. Parks helped spark the modern civil rights movement when she refused to give up her seat on a legally segregated bus that fateful day, December 1, 1955, leading to the Montgomery bus boycott and the emergence of Martin Luther King, Jr.

From the beginning, Mrs. Parks led a life dedicated to social change, becoming an active member of the Montgomery, Alabama, chapter of the NAACP, which in the 1940s and 1950s was considered a dangerous organization. It could cost you your job. It could even cost you your life.

In 1943, along with the State president of the NAACP, she mobilized a historic voter registration drive in Montgomery and was later elected NAACP chapter secretary. Mrs. Parks was a courageous woman who possessed the firm and quiet strength necessary to challenge injustice.

Following the 1954 Brown Supreme Court decision which provided equal protection under the law's legal framework, her refusal to give up her seat eventually led to the 1964 Civil Rights Act, the 1965 Voting Rights Act, the 1968 Open Housing Act, all of which helped make America better for all Americans.

Rosa Parks remained a committed activist until the end of her life. In the 1980s, she worked in support of the South Africa anti-apartheid movement. In Detroit with Congressman JOHN CONYERS in 1997, she founded the Rosa and Raymond Parks Institute for Self-Development, a career counseling center for African American youth.

With dignity, with grace and with courage, Rosa Parks inspired generations and helped to make the world a more just and compassionate place. In life she received the Presidential Medal of Freedom in 1996 and the Congressional Gold Medal in 1999, the highest honors our Nation bestows on civilians.

This placing of a Rosa Parks statue in National Statuary Hall is a testament to the fact that the long arc of history bends towards freedom and justice and equality. When Statuary Hall was created by law in 1864, African Americans could not be citizens of the United States. Indeed, the term "African Americans" did not exist. Under that law it was impossible for us to be considered favorite sons or favorite daughters of States.

When Rosa Parks takes her place in National Statuary Hall, she takes with her Frederick Douglass. She takes with her the United States coloreds troops. She takes with her Harriet Tubman and Sojourner Truth. She takes them there. Indeed, she takes the legacy and history of redefining what it means to be an American for all Americans as she takes her place among the enormous statues that presently represent the various States within that great Hall.

She takes with her countless nameless people of African descent, who from slavery to today, sacrificed for an America many would never live to see.

As Dr. Martin Luther King, Jr., whose half statue is not in Statuary Hall, would implore us, Now is the time.

I want to thank Senator FEINSTEIN for introducing this bill in the other body. I want to thank Matt McGowan and Khalil Abboud from the Joint Committee on the Library for diligently working to get this extension enacted into law. I want to thank Barbara Wolanin from the Architect of the Capitol's Office for working with all of us to make sure that the goals of my original bill are realized.

I want to thank Chairman BRADY and Ranking Member EHLERS for their sensitivity on this critical issue at this critical hour. And I want to thank in a special way our late Chair, Juanita Millender-McDonald, who worked with me tirelessly on this effort.

In fact, Mr. Speaker, I might add that in the 13 years I have had the privilege of serving in this body, I have only missed two votes: one vote because my pager died and the battery did not forward my pager the power to let me know to vote; and the other vote was when I was on the other side of the aisle so overwhelmed by the number of Republicans who were willing to sign onto a Rosa Parks statue in Statuary Hall that the Democratic clerks could not find me to tell me to vote. I was overwhelmed by that occasion.

I am hoping, Mr. Speaker, that today Members of Congress will once again vote "aye" on S. 2206. I know of no American more worthy of an honor than the late Mrs. Rosa Parks.

Mr. EHLERS. Mr. Speaker, I have no other speakers, but I would like to close with a few additional comments.

First of all, I admire my colleague's voting record. It is a rare person who misses only two votes during 13 years.

But above all, I want to comment on a few things relating to Rosa Parks. First, what impresses me is how much one person who is determined to fight for what is right can accomplish. She was a marvelous person and stuck to her guns in tough situations, and she carried the day and inspired a lot of other people to carry the day.

The other factor is, as I look around the world today, and the United States especially, and compare that to the world before Rosa Parks, what a mammoth change we have undergone. But also as I look around, I still remember how much further we have to go. And let us always work in the spirit of Rosa Parks to destroy discrimination of all sorts and make certain that every American and in fact every citizen of this planet enjoys the freedom that we enjoy.

Mr. Speaker, I yield back the balance of my time.

Mr. BRADY of Pennsylvania. Mr. Speaker, I would again like to thank the gentleman from Illinois (Mr. JACKSON) for his participation and for his voting record also. And I thank my friend from Michigan, the ranking member, for all he has done. We have a great working relationship, and I thank him for continuing that relationship.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. BRADY) that the House suspend the rules and pass the Senate bill, S. 2206.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised that there are 2 minutes remaining in this vote.

□ 1911

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. EMANUEL. Mr. Speaker, I was absent from the Chamber for rollcall votes 1034, 1035, and 1036 on November 5, 2007. Had I been present, I would have voted "yea" on all three rollcall votes.

PERSONAL EXPLANATION

Mr. GUTIERREZ. Mr. Speaker, I was unavoidably absent from this chamber today. Had I been present, I would have voted "yea" on rollcall votes 1034, 1035 and 1036.

PERSONAL EXPLANATION

Mr. BOSWELL. Mr. Speaker, I regret that flight delays prevented me from being to vote today. Had I been present, I would have voted "yea" on the motion to close portions of the conference on H.R. 3222, H.R. 513, and H. Res. 744.

REPORT ON RESOLUTION RECOMMENDING THAT THE HOUSE FIND HARRIET MIERS AND JOSHUA BOLTEN IN CONTEMPT OF CONGRESS

Mr. CONYERS from the Committee on the Judiciary, submitted a privileged report (Rept. No. 110–423) on the resolution recommending that the House of Representatives find Harriet Miers and Joshua Bolten, Chief of Staff, White House, in contempt of Congress for refusal to comply with subpoenas duly issued by the Committee on the Judiciary, which was referred to the House Calendar and ordered to be printed.

OKLAHOMA IS OK WITH NEW IMMIGRATION LAW

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Mr. Speaker, there is a new immigration law in effect, and even Federal judges refused to stop it.

On November 1 it became a felony to knowingly harbor and hide illegals. It is against the law to give illegals driver's licenses or give them public benefits. Local police may now hold illegals they arrest for felonies and detain them for Federal deportation. And employers must use the new Federal verification system to determine legal status of workers.

This, unfortunately, is not a new Federal law, but one passed recently by the Sooner State: Oklahoma. Apparently, Okies are frustrated with too few results from Federal enforcement folk so they passed their own State law on immigration.

And good for them. Hopefully, other States will follow.

Of course, noncitizen groups and the "give America away" crowd sued Oklahoma in Federal court. And they lost. Early results of the law indicate illegals are leaving Oklahoma, some even going back to their own country, as it ought to be. They are getting the message: Come to America the legal way or don't come at all.

And that's just the way it is.

□ 1915

PERU FREE TRADE AGREEMENT

(Ms. LINDA T. SÁNCHEZ of California asked and was given permission to address the House for 1 minute.)

Ms. LINDA T. SÁNCHEZ of California. Mr. Speaker, I rise to strongly oppose the proposed U.S.-Peru Free Trade Agreement.

My opposition to the Peru FTA reflects America's opposition to the recent string of trade pacts that benefitted the wealthiest few at the expense of hardworking Americans. A recent poll revealed that six in 10 Republicans think free trade has been bad for the U.S., and that's just Republicans.

The American public is tired of waiting for this administration to "get it" and to start negotiating fair and smart trade deals that can benefit the little guy as well as the corporate fat cat.

The American public is impatient and, frankly, so am I. Fair trade can create economic opportunities for everyone, big business and working families alike, at home and abroad. Fair trade can advance our economy without jeopardizing good jobs and encourage development without ravaging our environment.

Some say that the Peru FTA is better than what we've had in the past. I join the American people in saying, "It's not good enough."

Join me in standing up for American families. I urge my colleagues to vote "no" on the Peru Free Trade Agreement.

SPECIAL ORDERS

The SPEAKER pro tempore (Mr. LINCOLN DAVIS of Tennessee). Under the Speaker's announced policy of January 18, 2007, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

NATIONAL BIBLE WEEK

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. MCINTYRE) is recognized for 5 minutes.

Mr. MCINTYRE. Mr. Speaker, what a privilege it is to speak on National Bible Week as we celebrate the written Word of God, as we anticipate the upcoming celebration, the week of November 18–25. In fact, this book, the number one best seller of all time, the book is known as a book of encouragement, a book of enlightenment, and a book of edification.

Encouragement. When I think about what the Bible has meant to me, I remember some of the great verses from the Old Testament, such as Joshua 1:9, "Be strong and courageous. Do not be terrified. Do not be discouraged. For the Lord God will be with you wherever you go." And Psalm 118:13–15 says, "I was pushed back and about to fall, but the Lord has helped me. The Lord is my strength and my song, He has become my salvation."

And then Psalm 138:8, which precedes my favorite Psalm, 139, it says, "The Lord will accomplish that which concerns me. Your love, O Lord, endures forever."

When we think of this day, when so many people are discouraged, I know, as we celebrate National Bible Week, that the Bible has been a Word of encouragement that I've experienced and I know many others have.

In addition to encouragement, it's a Word of enlightenment. Psalm 19 says, "Your Word is a lamp unto my feet and a light unto my path. The unfolding of Your Word gives light and gives understanding to the simple." And as many of my friends back home in North Carolina know, my favorite Old Testament verse is from Proverbs, 29:18, that says, "Where there is no vision, the people perish." And I think that's a great challenge to us, as leaders in this country, to have vision for where we want to take our country and what we want to do and how we want to solve the problems. In fact, this verse, "Where there is no vision, the people perish," is inscribed in our own Science Committee room in the Rayburn House Office Building.

In addition to encouragement and enlightenment, the Bible is a book of edification. Paul writes in the Book of Romans 10:17 that faith comes from hearing and hearing by the Word. And then James 1:22 reminds that we should be doers of the Word and not hearers only.

The Bible allows us to see ourselves through its many stories and parables and prophesies and teachings. It also shows the flaws and frailties that we all share in common in humanity. It also shows the fellowship, both human and divine, that calls forth those values that so often we look for in our society today, values of forgiveness, of faithfulness and of fulfillment in becoming all that we know that we can become.

I'm grateful that we take time in this country to celebrate the national week of the Bible coming up the week of November 18–25, and that we would take time tonight to celebrate not only the historical importance, but the personal importance that this great book, the best seller of all time, has for people literally the world over.

PRESIDENT NICOLAS SARKOZY ADDRESSES CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE. Mr. Speaker, I rise tonight to congratulate President Nicolas Sarkozy on his election to the presidency of France, and also welcome him to Washington, DC, as he addresses a joint meeting of this Congress on Wednesday of this week. I look forward to hearing his remarks in this Chamber.

This past May, Mr. Speaker, Nicolas Sarkozy became the 23rd President of France. His election has ushered in a new and welcomed era in positive relations between France and the United States.

The history of friendship between these two countries, the United States and France, runs deep and it runs wide. Since the American Revolution, we have shared a deep commitment to freedom and independence; both of our countries have. Perhaps one of the best early demonstrations of France's commitment to our shared heritage of freedom is the example of General Marquis de Lafayette—General Lafayette, a young Frenchman who believed so passionately in the cause of freedom and liberty for all individuals that he left his homeland of France and came to join the American colonies in their fight for independence against Great Britain.

It was General Lafayette who persuaded the French to help Americans in their fight for freedom and independence from Great Britain. He served courageously under the command of General George Washington. George Washington's and Lafayette's portraits both hang in this hall tonight.

General Lafayette is the only non-American portrait in the entire Capitol building, and is the only other portrait besides General Washington in this House Chamber. There is a reason for that; both of them, General Washington and his friend Lafayette, were committed to liberty for all.

The American people will always be grateful to the commitment of General Lafayette and the people of France throughout our pursuit for freedom and democracy through the American Revolution. And the American Revolution was successful because of their help.

In the same way, Mr. Speaker, we are hopeful that the election of President Sarkozy will renew the ties of friendship that bind our two countries and our long heritage together.

On the eve of the election, President Sarkozy said that "American friends can rely on France's friendship. France will always be next to them when they need us." We are hopeful, Mr. Speaker, that in the midst of many international crises, most notably, the threat of nuclear Iran and the global war on terrorism, that France will remain an ally committed to world peace and democracy for all and continue to pursue freedom for all peoples throughout the world.

I am pleased to be the sponsor of legislation H. Res. 379, which honors President Sarkozy and his appearance before Congress. I look forward to his continued friendship and an alliance between not only him and the United States, but the people of France and the United States.

And that's just the way it is.

NATIONAL BIBLE WEEK

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. RUSH) is recognized for 5 minutes.

Mr. RUSH. Mr. Speaker, on the week of November 18 we begin to celebrate in this Nation National Bible Week.

National Bible Week is the National Bible Association's signature event which is celebrated the week before Thanksgiving every year since it began in 1941.

In this week, we encourage the citizens of this Nation to read the Bible. Mr. Speaker, I must admit that I was not always an ardent Bible reader. I was always in and around the church, but as so many of us who belong to church, I was in the church, but church wasn't in me.

Mr. Speaker, I came to this Congress in 1993 and almost immediately upon my presence here I received a Bible similar to this given by Rev. Dr. D. James Kennedy. And, Mr. Speaker, I found my evenings alone, my wife and my family back in Chicago, and somehow I had a prompting to pick up the Bible and to read the Bible. I must admit, Mr. Speaker, that although I wasn't an ardent reader, now I'm a ferocious reader of the Bible, avaricious in my interests in terms of the words recorded in God's living book.

Mr. Speaker, I must say that I have been renewed as a man by the renewing of my mind according to the dictates and the Spirit that's incorporated in the reading of the Bible. I am a changed man; I am a new man. I don't have the same friends I used to have. I don't walk the same way; I don't talk the same way, and it's all because of this Bible.

Mr. Speaker, I am an activist, and for years I had shunned this Bible because it didn't speak to my activism. And then the Holy Spirit spoke to me through my conversations and through my interests in reading the Bible. And, Mr. Speaker, I came across a Scripture that really moved me, two, as a matter of fact. One is taken from the Old Testament, Micah 6:6–8: "With what shall I come before the Lord and bow myself before the high God? Shall I come before him with burnt offerings, with calves a year old? Will the Lord be pleased with thousands of ram, 10,000 rivers of oil? Shall I give my firstborn for my transgression, the fruit of my body for the sin of my soul?"

The Lord answers, "He has shown you, O man, what is good. And what does the Lord require of you? But to do justly, to love mercy and to walk humbly with your God."

Mr. Speaker, in those words, it encapsulated all that I had attempted to be, my activism, my love for humanity and my love for the Lord. Mr. Speaker, Luke 4 and 4:18: "The spirit of the Lord is upon Me. Because He has anointed me to preach the Gospel to the poor. He has sent me to heal the brokenhearted, to proclaim liberty to the captives and recovery of sight to the blind, to set at liberty those who are oppressed, to proclaim the acceptable year of the Lord."

Mr. Speaker, my life had been, and continues today, to be a reflection of the spirit that is within me, the Holy Spirit that is within me. I call on all good citizens, Christians and non-Christians alike, during this week and every week of the year, pick up your Bible. Read the Bible. You have no better friend. You have no better solution than what is recorded in these words.

RECOGNIZING AND CONGRATULATING ROSS AND MARIANNA BEACH

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. MORAN) is recognized for 5 minutes.

Mr. MORAN of Kansas. Mr. Speaker, I appreciate the testimony and words as spoken by the gentleman from Illinois. I rise tonight to speak to congratulate Ross and Marianna Beach and the Marianna Kistler Beach Museum of Art on the occasion of the museum's grand reopening. Located in Manhattan, on the campus of Kansas State University, the Beach Museum of Art has become a cherished cultural center in the Flint Hills of my home State. Over the years, the museum has nearly tripled the number of their works of art and has enhanced the lives of thousands of patrons.

Originally opening on October 16, 1996, the museum offers a wide array of services to the area. While continually adding to the collection of regionally inspired art, the museum contributors have also made educational programs, lectures, tours, and workshops available. The new 15,000 square-foot addition of the Mary and Morgan Jarvis Wing is evidence of the museum's continuing success and benefit.

Believing in art appreciation and education, the Beach Museum is poised to contribute to the culture in Kansas for generations to come. The impact the museum has on Kansas is immeasurable. Located on the campus of a nationally ranked university and in close proximity to Fort Riley, the Beach Museum serves a highly diverse population. Students, along with military personnel and their families, come from all over the globe to live, work, and learn. This oftentimes short-term community is always pleased to discover an art museum of such fine quality.

Through the efforts of Kansas State University president Dr. Jon Wefald and his wife, Ruth Ann, the museum has gained national notoriety. Mrs. Wefald's leadership on the museum advisory board has proven to be a major factor in the museum's rapid growth and expansion.

The university, the City of Manhattan and the State of Kansas have benefited tremendously from the Wefalds' dedication. Gratitude is owed for their committed devotion to the museum. Museum director Lorne Render should be commended for guiding the museum into the 21st century. Through Lorne's service to the arts, the Beach Museum continues to offer exhibits and programs that enhance the quality of life of all Kansans and, in fact, many Americans. As the museum continues to contribute to the appreciation of the arts, appreciation should be extended to Lorne for the museum and the museum's knowledgeable staff.

The museum would not have been possible but for the generous philanthropic ideals exhibited by the lead donors, Ross and Marianna Beach. The Marianna Kistler Beach Museum of Art was named by Mr. Beach for his wife in commemoration of their 50th wedding anniversary. Mr. And Mrs. Beach are longtime donors of talent and treasure to the State of Kansas. Their commitments to the arts extend beyond the Beach Museum in Manhattan. They were instrumental in establishing the Beach/Schmidt Performing Arts Center on the campus of Fort Hays State University in Hays, Kansas. This center has been providing a venue for plays, speeches, debates, and concerts for more than 20 years. The Beachs' commitment to the arts extends across the State and is appreciated by Kansans from all walks of life.

My wife and I are proud to serve on the museum's board of visitors. We have witnessed, firsthand, the results Ross and Marianna Beach have attained. It is certain that the Beach legacy will be experienced by thousands of people for generations to come.

Mr. Speaker, I ask the House to join me in acknowledging the Marianna Kistler Beach Museum of Art along with Ross and Marianna Kistler Beach for their contributions to our society. Kansas is proud to have the museum for our enlightenment and enjoyment. And I am also proud to call Ross and Marianna Beach my friends and fellow Kansans.

NATIONAL BIBLE WEEK

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Kansas (Mrs. BOYDA) is recognized for 5 minutes.

Mrs. BOYDA of Kansas. Last weekend, I spoke on a panel about civics and civility at Kansas State University. And during the question-and-answer time, a teacher stood up and asked me a question. She said, Do you know of any books that might be like a checklist that I could share, be a checklist on teaching my kids civics and civility? I thought for a minute, and I said, As a matter of fact, I do.

I am holding it right here in my hand, Mr. Speaker. It is the Bible. This particular copy was my mother's Bible. And it is the one that I was sworn in last January. So it has a great deal of meaning to me. The lessons in the Bible are truly a checklist for decent living. In Matthew 22, when the disciples asked what is the greatest commandment, it is to love our God with all of our heart and soul and mind, and the second is likened to it, to love thy neighbor as thyself. And then He says, on these hang all the laws and the prophets. Love thy neighbor as thyself. Very clear. Judge not lest you be judged.

The Bible has all the wisdom that we need to bring our country together. And that's why I'm glad the House is pausing tonight to recognize the start of National Bible Week. Faith has an important role to play in the lives of all Americans. It is a role that may be more important today in these dangerous and complicated times than ever before. And it is a role that we, yes, we as public servants have to defend.

Just last month, the Architect of the Capitol refused to fulfill a citizen's request for a flag certificate that referred to devotion to God. Just last week, the National Cemetery Administration banned a flag folding ceremony used at veterans' funerals because of references to God. Let's be clear: neither mentioning God in a flag certificate nor speaking of God in a funeral ceremony poses any threat to the separation of church and State. Not only is speaking about religion permitted by the Constitution; it is a right that is protected by the first amendment.

Thankfully, both of these bans have been reversed, and not a moment too soon. As we begin National Bible Week, I hope that all of my colleagues and citizens across America will pause to recognize the role that faith plays in all of our lives to reflect on the lessons of the Bible. It is our guidebook. It is our guidebook to civics and civility, as well. It is our how-to guide for public service. Everything we need is right here, folks. It is right here between these two covers.

WATER RESOURCES DEVELOPMENT ACT OF 2007

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Missouri (Mr. HULSHOF) is recognized for 5 minutes.

Mr. HULSHOF. Mr. Speaker, I look at the time, it is about 13 years ago exactly at this moment that I was standing at the altar saying, "I do" to the love of my life. So I must begin by wishing a happy 13th anniversary to the most beautiful woman in the world, with all respect to those ladies that are here present. I guess every marriage has obviously some high points and some disappointments.

And the other reason for me coming to floor is to actually speak about the disappointment that I have with the White House, particularly with its veto of H.R. 1495, the Water Resources Development Act, often referred to as WRDA. This veto, if I must say so, was ill advised and I expect will be overridden by this House tomorrow and the Senate in the coming days.

I acknowledge that the President, during the veto message, mentioned that when the WRDA bill left the House, it was about $15 billion. The Senate's version was at 14 billion. And the final version of the water resources bill was somewhere around 23 billion. Yet certainly the White House understands that the bill that left the House had different priorities emphasized, different projects were being considered by the Senate and as such when the conference was convened, those bills had to be combined. The President, in his veto message, said, in essence, I fully support funding for water resources projects.

Respectfully, I must point out that the President's budget each year woefully underfunds the Army Corps of Engineers budget in my view, the operations and maintenance budget. And the White House went on with its veto message to say, My administration has repeatedly urged Congress to authorize only those projects that provide a high return on investment.

Well, I share the White House's belief that taxpayers deserve a dollar's worth of services for every dollar they remit in taxes. But just looking at water resources projects in terms of dollars and cents is what caused us to only have category 3 levees in New Orleans. We have seen how short-sighted that decision was. In fact, I would suggest that over the last 25 years, every dollar that the Corps has invested in flood control has been returned six-fold in potential damages that had been averted.

A WRDA bill has not been passed by Congress in 7 years. Communities around this Nation are now in desperate need for projects such as levees and protective coastal wetlands. Moreover, in the past 7 years, our waterborne transportation infrastructure has continued to crumble. There are 192 active locks on navigable waterways in this Nation. The average age is 60. The President, by his veto, is choosing to ignore these needs, possibly harming the lives and certainly the livelihoods of millions of people in this country.

One of the most important projects for the Missouri-Illinois delegations is the much-needed modernization of the five locks on the upper Mississippi River and two on the Illinois waterway. This is something that we helped author back in the 108th Congress. And certainly I acknowledge my good friends and supporters of this, the gentleman from Iowa (Mr. BOSWELL), the dynamic duo from Illinois, Mr. COSTELLO and Mr. SHIMKUS on our side of the aisle, and also Chairman OBERSTAR and Ranking Member BAKER have been instrumental in bringing this project to fruition.

Look, these locks are vital to farmers, manufacturers and many other industries in Missouri, Illinois, Minnesota, and Wisconsin. These locks on the Mississippi and Illinois rivers facilitate the movement of 100 million tons of cargo every year. While almost 50 percent, half of this is cargo, is agricultural, the river also transports asphalt for road construction, coal for electricity. In fact, did you know that every gallon of jet fuel that is used at O'Hare and Midway Airports in Chicago is transported on our navigable waterways?

The shipments of these products via the river saves the American public between $800 million and $2 billion over other modes of transportation. Certainly I would suggest that while not every farmer in the region uses the river to ship crops, all growers are impacted by it. Every day the price of grain a farmer receives at his home market is based on the price of grain that moves on the Mississippi River to export markets. The lower the cost of transportation here within our own borders, the lower the cost of U.S. grain is on the world market, the more grain the United States is able to sell to our foreign trading partners.

As some in this Chamber know, I have a personal experience shipping on the river. I grew up in the shadow of the levees along the Mississippi in southeast Missouri. Lock modernization, I can assure you, will ensure that farmers in Missouri, Iowa, Illinois, Minnesota, Wisconsin and elsewhere continue to have the same benefit that my family had growing up on our family's farm, the ability to ship crops to international markets via the most cost-effective method.

Now, many of these locks, unfortunately, are being held together with bailing wire and duct tape. Our senior Senator, Senator BOND, is fond of saying that these locks belong on the National Register of Historic Places. He is actually mistaken. They are already on the National Registry of Historic Places.

I urge this House to override the President's veto.

GENERAL LEAVE

Mr. CLYBURN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

NATIONAL BIBLE WEEK

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. CLYBURN) is recognized for 5 minutes.

Mr. CLYBURN. Mr. Speaker, it is interesting that I come after the gentleman from Missouri, because before leaving home down in South Carolina this morning, I went to dedicate a water project in a part of my State where they have a real problem with potable water, and extensive health problems as well. During that ceremony, it was asked of me what kind of guarantee that I have that this water project would be seen to fruition. This morning we were dedicating the first phase. There are two others.

In answering the question, I referred to the greatest of all books, the Bible.

I referred to the Book of Hebrew, the 11th chapter. I call that the faith chapter of the Bible. I quoted Hebrew 11.1: Faith, the substance of things hoped for and the evidence of things unseen. I quoted that because in our work here, much of the time, though we don't view our work as being grounded in the Bible, we often strike out on faith. We have a little idea sometimes of exactly where any issue is going. I do believe that as we carry out our duties and responsibilities to the people of this great Nation, sometimes we ought to pause and give credence to where that emanates from.

So I am pleased that my good friend from Illinois asked me to come down tonight and to join in this special order commemorating the Bible during National Bible Week. When I was growing up, my father, who was a fundamentalist minister, never asked me to read the Bible, never instructed me to do so. He just told me every morning at the breakfast table to recite a Bible verse. Now, it would be a little difficult to do that without reading the Bible. He made sure that we didn't do the same one twice. Daddy set down the rule. He took Jesus' whip off the table. So it was very, very important for me to read the Bible daily.

He also had a second rule, and that is that every night before retiring to bed, we had to share with our parents, or one of them, some current event. He would often have ways of showing us how that particular event that we may have shared was grounded in the Good Book.

So long before I became House Majority Whip, I assumed the leadership of the Democrats' Faith Working Group. For the last 3 years now, Mr. Speaker, it has been my great joy to work with the members of our caucus, trying to get our membership comfortable with the fact that our work here is in fact faith-based.

If you doubt it, then I ask all of my colleagues to just take a look at my favorite book of the Bible, the Book of James. It has got nothing to do with my name, though that would not be a bad thing. It's a very short book, but it tells us a lot about our responsibility. There, in the second chapter of James, we are all instructed that if your brother or sister comes to you hungry and naked, it is not enough to tell them to go in faith; you feed them and you clothe them.

That is what this Congress is all about. This Congress is about doing those things that are necessary to make sure that our constituents and make sure that our citizens are fed that need to be fed or clothed that need to be clothed. I do believe if James were writing his epistle today, he would also tell us it is also important to house them when they need shelter.

Mr. RAHALL. Mr. Speaker, this year the week of November 18–24th has been designated "National Bible Week," a week to renew our interest in the Bible and to recognize the influence that the Bible has had in our lives and on our nation throughout its history.

As a child growing up in West Virginia, I was encouraged by my father to read the Bible daily, because he found such solace and comfort in the Word. As Paul wrote in Philippians 4:13, "I have learned the secret of being content in any and every situation, whether well fed or hungry, whether living in plenty or in want, I can do everything through Christ who gives me strength."

Knowing this soothes and comforts my soul in times of distress. It is my guiding light that keeps me centered and focused and I derive great joy from reading the scriptures during my time of mediation and reflection.

Today, God's Word written in the Holy Scriptures of the Bible is important to me both as an individual and as a leader. It is the Bible that guides me through the day, as I seek to make decisions that will affect people in my state and in our nation—decisions that require a wisdom that is found throughout the Old and New Testaments of the Bible.

It is the Word of God written in the Bible that gives me the fortitude I need to carry out my responsibilities as a friend, a father, a husband, and a Congressman. The Bible provides the wisdom to know how to respond to my family and constituents during times of dire crisis.

For these reasons, and many more, I thank God that we have a manual for our daily living in the Bible.

As we face the unforeseen challenges that lie ahead, both at home and abroad, I encourage all Americans to read the Bible and read it often, to study its teachings, and to make it an important part of their lives.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3043) making appropriations for the Department of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2008, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008 as Division A; and the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2008 as Division B.

DIVISION A—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2008

In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 110–231 and Senate Report 110–107 accompanying the bill, H.R. 3043.

In the cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this joint statement.

In the cases in which the House or the Senate reports direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

The conferees note that section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or $500,000, whichever is less, between programs, projects and activities.

Finally, the conferees request that statements on the effect of this appropriation Act on the Departments and agencies funded in this Division be submitted to the Committees within 45 days of enactment of this Act, pursuant to section 518. The conferees expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Furthermore, the conferees request the statements to also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2008 budget.

REDUCING THE NEED FOR ABORTIONS

The conference agreement includes nearly $615 million over the fiscal year 2007 funding level for the initiative in the House bill to reduce the need for abortions in America through both prevention and support programs. Key increases are provided for Healthy Start, Family Planning, Abstinence Education, Child Care, and Community Services Block Grant to increase services to prevent unintended pregnancies, encourage women to carry their pregnancies to term, and provide support for new parents who have economic difficulties. New approaches include a young parents training initiative in the Department of Labor, first time motherhood grants under the Health Resources and Services Administration, and a teen pregnancy prevention demonstration within the Centers for Disease Control.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008, put in place by this bill, incorporates the following agreements of the managers:

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

Of the amount appropriated, $1,772,000,000 is an advance appropriation for fiscal year 2009 as proposed by the House and the Senate.

The conference agreement includes $1,471,903,000 for Dislocated Worker Assistance as proposed by the House and the Senate. The conferees override the formula that provides that 80 percent of the funds provided will be used for State formula grants and 20 percent in a National Reserve Account. For program year 2008 the conferees provide $1,189,811,000 for the State formula grants and $282,092,000 for the National Reserve Account.

The conference agreement provides that $6,300,000 in National Reserve Account funds shall be available upon enactment for the purposes of grants, to be awarded within 30 days of enactment, for the continuation of national or multi-state training and employment programs. These grants are to be awarded to the AFL–CIO Working for America Institute and AFL–CIO Appalachian Council, as proposed by the Senate, and the National Center on Education and the Economy, as proposed by the House.

The conference agreement provides that up to $125,000,000 within the National Reserve Account may be used to carry out the Community-Based Job Training Grant initiative as proposed by the House, instead of $150,000,000 as proposed by the Senate. The conference agreement continues bill language which provides that this amount is to be allocated from national emergency grant funds available under section 132(a)(2)(A) of the Workforce Investment Act of 1998, notwithstanding the limitation otherwise imposed under section 171(d), as provided by the Senate. The House contained no similar provision. The conference agreement includes a general provision requiring these grants to be awarded competitively.

The conferees are in agreement that no funds from the dislocated worker national reserve account or other pilot and demonstration resources be used for career advancement accounts or the predecessor proposal for personal reemployment accounts prior to a specific authorization of such activities, as proposed by the House. The Senate contained no similar provision.

For Native Americans, the conference agreement includes $55,039,000, instead of $56,381,000 as proposed by the House and $53,696,000 as proposed by the Senate.

For Migrant and Seasonal Farmworkers, the conference agreement includes a total of $82,740,000 instead of $83,740,000 as proposed by the House and $79,752,000 as proposed by the Senate. Within the total, $77,265,000 is for State service area grants. The amount provided also includes $4,975,000 for housing grants and $500,000 for other discretionary purposes, as described in the Senate report. The House bill included $5,000,000 for housing and the Senate bill provided $4,950,000 for housing and $500,000 for other discretionary purposes. The conference agreement includes bill language proposed by the House providing that no less than 70 percent of formula funds be used for employment and training services and bill language proposed by the Senate which prohibits the Department from restricting the provision of "related assistance" services by grantees. These provisions ensure that the program primarily addresses the employment and training needs of the target population while also allowing grantees to provide related services that are often critical to the stabilization and availability of the farm labor workforce.

For YouthBuild, the conference agreement includes $62,500,000, instead of $60,000,000 as proposed by the House and $65,000,000 as proposed by the Senate. This will provide sufficient funds for an additional competitive grant round in program year 2008.

For Pilots, Demonstrations and Research, the conference agreement includes $50,569,000 instead of $28,140,000 as proposed by the House and $30,650,000 as proposed by the Senate. Included in this amount is $5,000,000 for a new demonstration program of competitive grants to address the employment and training needs of young parents as proposed by the House and detailed in House Report 110–231. The House provided $10,000,000 for this purpose. The Senate had no similar provision.

For the remaining amount provided for Pilots, Demonstrations and Research, the conference agreement includes a modification of bill language as proposed by the Senate. The conference agreement includes the following projects in the following amounts:

The conference agreement consolidates the Responsible Reintegration of Youthful Offenders and Prisoner Reentry programs into a program of Reintegration of Ex-Offenders, as proposed by the House. The conference agreement provides $78,694,000, instead of $68,746,000 as proposed by the House and a total of $68,642,000 as proposed by the Senate in two individual programs. Within this amount, the conference agreement provides that no less than $59,000,000 be used for programming for youth. The conference agreement also provides that a total of $50,000,000 be available from resources in both fiscal years 2007 and 2008 for a youth mentoring initiative. The $50,000,000 provided is for competitive grants to local educational agencies or community-based organizations to develop and implement mentoring strategies in schools identified as persistently dangerous. The conferees intend that $33,000,000 provided in this Act, along with $17,000,000 in funds made available under the fiscal year 2007 appropriation for youthful offenders, be available for this purpose and direct that the solicitation of grant agreements be issued on a timeline that provides for the incorporation of both the fiscal year 2007 and fiscal year 2008 contributions to the enhanced effort to assist persistently dangerous schools in mentoring efforts to prevent youth violence in high crime areas.

For the Denali Commission, the conference agreement provides $6,875,000 as proposed by the Senate for job training services. The House did not include funds for this activity.

The conference agreement does not include the $49,000,000 undistributed reduction in training and employment services as proposed by the House. The Senate bill had no similar provision.

The conference agreement includes a rescission of $245,000,000 in prior year Workforce Investment Act unexpended balances for the Youth, Adult and Dislocated Worker formula programs. The House bill contained a $335,000,000 rescission of prior year training and employment service balances, while the Senate bill had no similar provision. The conferees direct the Secretary to target the rescission within each funding stream so that the first funds subject to recapture are those program year 2005 and 2006 funds carried in to program year 2007 that are in excess of 30 percent of funds available in program year 2006 as of June 30, 2007. To arrive at the total amount within each funding stream, the balance of the rescission should be based on each State's remaining unexpended fiscal year 2005 and 2006 balances as of June 30, 2007, after adjusting those balances by any excess carryout identified in the first calculation. In addition, within each funding stream, the conferees direct that the Secretary ensure that the amounts rescinded within each State shall be from funds reserved for Statewide activities, and funds related to each local area, in proportion to the extent to which these balances, respectively, contributed to the amount to be rescinded in the State. Consistent with these specifications, the conferees direct the Secretary to carry out the rescission in a manner that will minimize burdens on States and local areas. To achieve that goal, the conferees further direct that it is intended that the requirements of sections 128, 133 and 134(a)(3)(B) of WIA relating to cost limits and to the applicable percentages of funds that may be used for Statewide activities, rapid response, and allocations to local areas, be applied by the Secretary only with respect to the initial allotments received by the State from fiscal year 2005 and 2006 funds and that those requirements are not intended to be applied based on the amounts remaining available to the States after this rescission has been carried out.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The conference agreement includes $530,900,000 for Community Service Employment for Older Americans as proposed by the House, instead of $483,611,000 as proposed by the Senate. This amount covers the second increment of the Federal minimum wage increase, from $5.85 to $6.55 an hour, for program participants.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The conference agreement includes $3,377,506,000 for State Unemployment Insurance and Employment Service Operations, instead of $3,382,614,000 as proposed by the House and $3,386,632,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes language not included in the House or Senate bills that allows the Secretary of Labor to make payments on behalf of the States for matching Unemployment Insurance (UI) claims information against the information in the National Directory of New Hires to prevent, detect, and collect improper UI payments. States are required to reimburse the Department of Health and Human Services (HHS) for the reasonable costs incurred in providing the information. Allowing the Secretary to aggregate such amounts and provide a payment to HHS covering the costs of all States will not affect the share of UI administrative funds available to each State, but will provide a more cost-effective means through which the required reimbursements are to be paid.

For Employment Service grants to States, the conference agreement includes $715,883,000 as proposed by the Senate, instead of $725,883,000 as proposed by the House. This includes $22,883,000 in general funds and $693,000,000 from the Unemployment Trust Fund. For Employment Service National Activities, the conference agreement includes $32,766,000 as proposed by the House instead of $34,000,000 as proposed by the Senate. This includes $12,740,000 for foreign labor certification programs.

For workforce information, national electronic tools and one-stop system building, the conference agreement provides $52,985,000 as proposed by the House, instead of $55,985,000 as proposed by the Senate. Within this amount, the conferees direct that workforce information grants to the States be funded at no less than $32,430,000 as proposed by the House.

For Work Incentive Grants, the conference report provides $14,649,000 instead of $9,757,000 as proposed by the House and $19,541,000 as proposed by the Senate. The conferees direct the Department to ensure that all States that wish to participate in this program receive funding for new or continuation grants to support their disability navigator programs.

PROGRAM ADMINISTRATION

The conference agreement includes $176,662,000 for Program Administration, instead of $170,500,000 as proposed by the House and $185,505,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees. Within the amount for employment security activities, the conference agreement includes not less than $43,500,000 to improve the timeliness and quality of processing applications under the foreign labor certification program.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes $142,925,000 for the Employee Benefits Security Administration, as proposed by the House instead of $143,262,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees. The conferees request a briefing on the schedule for the completion of the EFAST2 system prior to the announcement of the availability of funds for its development and regular progress reports on this project. The conferees are also in agreement that EBSA should devote resources to the issuance of regulations on meaningful and uniform reporting of 401(k) fees and that a national education program on 401(k) investment options, fees and conflict of interest be created as described in House Report 110–231.

PENSION BENEFIT GUARANTY CORPORATION

PENSION BENEFIT GUARANTY CORPORATION FUND

The conference agreement includes $411,151,000 for the administrative expenses of the Pension Benefit Guaranty Corporation, as proposed by both the House and the Senate. The conference agreement includes language in the House bill providing for workload driven increases in management fees based on increases in assets received by the Corporation as a result of new plan terminations, after approval by the Office of Management and Budget and notification of the Committees on Appropriations of the House of Representatives and the Senate.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes $437,508,000 for the Employment Standards Administration, salaries and expenses, instead of $436,508,000 as proposed by the House and $438,508,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

For the enforcement of wage and hour standards, the conference agreement provides $183,365,000, instead of $182,365,000 as proposed by the House and $184,365,000 as proposed by the Senate. The additional $1,000,000 is provided for accelerating start-up of a system to resolve claims of injury caused by asbestos exposure. If the authority for an asbestos claims program is not enacted by June 30, 2008, these additional funds may be used to support wage and hour enforcement in low wage industries.

The conference agreement includes a rescission of $102,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. The House and the Senate proposed a rescission of $70,000,000; however, information received from the Department of Labor indicates that receipts in this account allow a higher amount to be rescinded while still ensuring that the $5,500,000 the Department estimates it will use in fiscal year 2008 under current authority remains available.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES

OCCUPATIONAL ILLNESS COMPENSATION FUND

(INCLUDING TRANSFER OF FUNDS)

Within the total provided, the conference agreement includes a proviso transferring $4,500,000 to the National Institute for Occupational Safety and Health for use by the Advisory Board on Radiation and Worker Health. While both the House and the Senate included this provision, the House report specified that the amount be in addition to $55,358,000 identified for transfer to the Department of Health and Human Services. The conferees clarify that the $4,500,000 for the Advisory Board on Radiation and Worker Health is a part of the total transfer amount. The Board is a key component of the administration of the program at NIOSH and the conferees expect that it will be funded at the level provided for in the conference agreement.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes $500,568,000 for the Occupational Safety and Health Administration (OSHA), instead of $503,516,000 as proposed by the House and $498,445,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

For Federal Enforcement, the conference agreement includes $190,128,000 as proposed by the House, instead of $188,005,000 as proposed by the Senate, and for Federal Compliance Assistance, the conference agreement includes $72,659,000 as proposed by the Senate, instead of $75,566,000 as proposed by the House. The conferees believe that it is important to rebuild the Federal enforcement capacity of OSHA and that the agency should collect data needed to evaluate the effectiveness of voluntary compliance programs before additional investments are made to support this approach.

The conference agreement includes language proposed by the House requiring the Secretary of Labor to provide detailed reports on the development and issuance of certain occupational safety and health standards that have remained on the OSHA regulatory agenda without completion. The Senate had a similar provision in its report, but not in the bill.

The conferees are concerned that the Department has failed to make sufficient progress on its comprehensive plan to address ergonomic injuries and requests that a report be provided to the Committees on Appropriations of the House of Representatives and the Senate within 30 days of enactment of this Act detailing the specific steps it will take to complete the issuance of all 16 industry guidelines. In addition to a timetable for the completion of the industry guidelines, the report should contain OSHA's plans for increased enforcement on ergonomic and musculoskeletal injuries.

The conferees are also concerned by OSHA's lack of action to ensure that health care workers and emergency responders will be adequately protected in the event of an influenza pandemic. The conferees note that the Department believes that in order to issue an emergency standard to protect these workers, the United States needs to be in the midst of an influenza pandemic and urges reconsideration of the standard-setting actions that can be taken on an emergency or expedited basis. Within 30 days of enactment of this Act, the conferees request a report to the Committees on Appropriations of the House of Representatives and the Senate detailing the timeline for developing and issuing a standard.

The conferees are also concerned by the inadequate response to the serious health hazards posed by industrial exposure to the chemical diacetyl, a butter flavoring agent used in microwave popcorn and other foods. Despite documented cases of a debilitating and potentially fatal lung disease, OSHA has not moved swiftly enough to protect workers from this hazard. The conferees urge OSHA to reconsider its decision concerning an emergency standard, and direct that at a minimum a permanent standard should be developed on an expedited basis. Within 30 days of enactment of this Act, the conferees expect OSHA to provide a report to the Committees on Appropriations of the House of Representatives and the Senate detailing its anticipated timeline for issuing such a standard, as well as providing the details of a national emphasis program that will extend enforcement activities to all food manufacturing and flavoring plants where diacetyl is used.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes $339,893,000 for the Mine Safety and Health Administration (MSHA), instead of $340,028,000 as proposed by the Senate or $313,478,000 as proposed by the House. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conferees are disturbed that MSHA has fallen significantly short of its obligation to complete 100 percent of regular inspections of coal mines, as required by law. In 2006, almost 5 of every 100 regular inspections nationally were not completed. In some districts, the rates were close to 15 or 20 of every 100 inspections that were not completed. The conferees find these results unacceptable.

The conference agreement provides MSHA with an increase of $37,024,000 over fiscal year 2007 resources to ensure that MSHA can carry out its legal obligations to regularly inspect our nation's coal mines. Together with increased funding for standards development, educational policy and development, and technical support, the conferees believe that the additional funds provided are sufficient to ensure that MSHA completes all of its inspection responsibilities, as well as complies with other statutory requirements of this Act and the MINER Act.

The conferees direct that, not later than 30 days after enactment of this Act, MSHA provide to the Committees on Appropriations of the House of Representatives and the Senate a detailed operating plan describing how these funds will be utilized and the specific outcomes that will be achieved. The conferees concur with Senate Report 110–107 regarding the priority use of these additional funds and expect MSHA to adhere to these when preparing the required operating plan.

Within the amount provided for MSHA Program Administration, the conference agreement includes $2,200,000 for a national project award to the United Mine Workers of America for classroom and simulated rescue training for mine rescue teams, and $1,215,000 for the Wheeling Jesuit University National Technology Transfer Center.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

The conference agreement includes $566,804,000 for the Bureau of Labor Statistics (BLS), instead of $576,118,000 as proposed by the House and $560,000,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes $185,796,000 for Prices and Cost of Living, instead of $192,599,000 as proposed by the House and $178,992,000 as proposed by the Senate. The conferees expect that the increase above fiscal year 2007 will be used for continuous updating of the housing and geographic area samples of the Consumer Price Index (CPI). The conference agreement does not include $450,000 as proposed by the House to begin the development of a methodology to determine cost of living by State. The Senate did not include a similar provision.

Included in the amount for Compensation and Working Conditions is $1,000,000 to conduct focused research studies on work-related injuries and illnesses as proposed by the Senate, instead of $1,225,000 as proposed by the House for this purpose.

The conferees are interested in ascertaining the impact of the North American Free Trade Agreement (NAFTA) on employment in the United States. When NAFTA was debated in the U.S. Congress, there were estimates that implementation of the agreement would result in the net creation of 200,000 new U.S. jobs, and that job losses in the United States as a consequence of NAFTA would be concentrated in low-skill sectors. The conferees direct the Department of Labcr, through BLS, to issue a report within 365 days of enactment of this Act, assessing the number of U.S. jobs, on an industry-by-industry basis, that were created as a consequence of NAFTA, and the number of U.S. jobs, on an industry-by-industry basis, that were lost as a consequence of NAFTA. The study should encompass the period from the date of implementation of NAFTA to December 31, 2007. Neither the House nor Senate report contained similar language.

OFFICE OF DISABILITY EMPLOYMENT POLICY

SALARIES AND EXPENSES

The conference agreement includes $27,712,000 for the Office of Disability Employment Policy (ODEP), as proposed by the House and the Senate. The conferees intend that at least 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policy that reduces barriers to employment for youth and adults with disabilities.

The conferees are concerned by the lack of available information regarding the extent to which effective disability employment policy developed by the ODEP has been implemented within the Department of Labor and by other Federal agencies whose programs provide services to all job seekers and workers, including those with disabilities. Therefore, the conferees direct the Secretary of Labor, working through the Assistant Secretary for Disability Employment Policy, to provide a report to the Committees on Appropriations of the House of Representatives and the Senate. This report shall be provided to the Committees and published on the Department's web site no later than June 30, 2008.

The conferees expect this report to identify and recommend policies the ODEP has developed during its history that have been or should be implemented within the Department of Labor or by other relevant Federal agencies. Further, the report should describe the cause-and-effect relationship that these policies have had on reducing barriers to employment for adults and youth with disabilities. The conferees also request that the report summarize how funds have been spent by ODEP since its inception. The conferees expect the report to show how ODEP has utilized its resources, including on staff expertise, grants, and contracts, to develop policy to reduce barriers to employment.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement includes $305,174,000 for Departmental Management, salaries and expenses, instead of $272,595,000 as proposed by the House and $313,218,000 as proposed by the Senate. The undistributed reductions in both the House and Senate bills are not included. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes $82,516,000 as proposed by the Senate for the International Bureau of Labor Affairs (ILAB), instead of $72,516,000 as proposed by the House. Within this amount, the conference agreement contains $5,000,000 as proposed in the House bill to implement model programs to address worker rights through technical assistance in countries with which the United States has trade preference programs and directs that this activity be carried out through a cooperative agreement with an international organization that has experience in working to assure adherence to a set of core labor standards through work with governments, employers and labor. The Senate had no similar provision. The conferees' recommendation for ILAB also includes $41,000,000 for the U.S. contribution to the International Program for the Elimination of Child Labor and $24,000,000 for bilateral assistance to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. The Senate provided $42,610,000 and $26,770,000 respectively for these activities. The House had no similar provisions.

The conferees are deeply concerned about the recent discovery of abusive and exploitative child labor by a subcontractor based in India embroidering women's garments for a major U.S. apparel company. These children, some as young as ten, were forced from their parents, denied wages, forced to work long hours, and forced to live in squalor. Official Indian government estimates indicate that there are around 12 million children working in hazardous conditions. However, non-governmental organizations working on eradicating child labor believe that there are close to 60 million child laborers, including approximately 10 million child bonded laborers. While this major U.S. apparel company has 90 inspectors that travel around the world trying to ensure that their codes of conduct are not violated, it is a difficult and daunting task given the high prevalence of exploitative child labor and the non-existence of an industry wide monitoring system for the garment industry in India. Therefore, the conferees direct the Department to work with the International Labor Organization in an effort to implement standards similar to those used in the Cambodian and Bangladeshi garment industries to ensure that U.S. consumer products are not made by abusive child labor in violation of local and international standards.

The conference agreement provides $20,000,000 for information technology systems, instead of $18,000,000 as proposed by the House and $22,000,000 as proposed by the Senate. These funds support information technology, architecture, infrastructure, equipment and software utilized by multiple agencies within the Department. The conferees support the use of a portion of such funds for the acquisition of a Financial Management System for the Department of Labor. The President's request to Congress included $12,000,000 as a direct appropriation to the Working Capital Fund for this initiative.

The conference agreement includes $95,050,000 for the Office of the Solicitor, instead of $94,937,000 as proposed by the House and $95,162,000 as proposed by the Senate. The conferees intend that the increased funding level support no less than an increase of 19 FTEs over the fiscal year 2007 staffing level for enforcement support for the Mine Safety and Health Administration, as specified by the Senate report. The House had no similar language.

For the Women's Bureau, the conference agreement includes $10,300,000 as proposed by the Senate, instead of $10,500,000 as proposed by the House. The conferees encourage continued funding for national networks for women's employment that advance women in the workplace through education and advocacy.

OFFICE OF JOB CORPS

The conference agreement funds this program within the Office of the Secretary as proposed by the House and the Senate. This reflects the current organizational status of the program, and the funds for the administration of this program are included in this account instead of within program administration for the Employment and Training Administration, as indicated in the detailed table at the end of this joint statement.

The conference agreement includes $1,650,516,000 for the Office of Job Corps, instead of $1,649,476,000 as proposed by the House and $1,659,872,000 as provided by the Senate. Within the total, $1,507,684,000 is provided for continuing operations of the program, as proposed by the House, instead of $1,516,000,000 as proposed by the Senate. For renovation and construction of Job Corps centers, the conference agreement includes $113,960,000, instead of $112,920,000 as proposed by the House and $115,000,000 as proposed by the Senate. The conference agreement does not include the designation of funds for a competition to increase child care development centers on Job Corps campuses as proposed by the House, and instead designates the $13,960,000 above the request for renovation and construction for the continued development of new Job Corps centers that have been awarded and are not yet completed. The conferees request that the Department of Labor include an analysis of the future funding needs of all new centers in development and a progress report on the timeline for opening new centers in its fiscal year 2009 budget justification, as proposed by the Senate.

The conference agreement includes bill language proposed by the Senate requiring that none of the funds in the Act be used to reduce student training slots below 44,791 in program year 2008. This slot level and the funds provided will support the maintenance of student training services at existing Job Corps centers, as well as provide for new centers scheduled to open in program year 2008. The House bill contained a similar provision.

VETERANS EMPLOYMENT AND TRAINING

The conference agreement contains $228,198,000 for Veterans Employment and Training, as proposed by the House instead of $231,198,000 as proposed by the Senate. The conferees encourage the Department to direct additional funds to the Transition Assistance Program, which will ensure that the increasing demand for services is met. The conferees also expect the Department to increase enforcement activities to ensure that veterans' rights under the Uniformed Service Employment and Re-Employment Rights Act and Veterans Employment Opportunities Act are being protected.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes $78,658,000 for the Office of Inspector General as proposed by the House instead of $79,658,000 as proposed by the Senate.

GENERAL PROVISIONS

JOB CORPS SALARIES

The conference agreement includes language that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any proration as an indirect cost, at a rate in excess of Executive Level I, as proposed by the Senate. The House included a similar provision in the Job Corps account.

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The conference agreement includes a provision limiting the authority to transfer funds between a program, project or activity and requiring a 15 day advance notification of any such request. Both the House and Senate bills contained similar provisions.

TRANSIT SUBSIDIES

The conference agreement includes a provision requiring the Secretary of Labor to issue a monthly transit subsidy at the full amount of $110 for eligible employees in the National Capital Region, as proposed by the House. The Senate bill contained no similar provision.

OPERATING PLAN

The conference agreement includes a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds, as proposed by the House. The Senate had a similar provision requiring an operating plan for the use of such funds. The conferees expect that the operating report on the use of such funds will be provided not later than July 1, 2008, and direct the Department to continue to submit quarterly reports to the House and Senate Appropriations Committees on the status of awards made for pilot, demonstration, multiservice, research, and multistate projects under section 171 of the Workforce Investment Act. These quarterly reports shall be submitted no later than 45 days after the end of each quarter and shall include a list of all awards made during the quarter, and for each award, the grantee or contractor, the amount of the award, the funding source for the award, whether the award was made competitively or by sole source and, if sole source, the justification, the purpose of the award and expected outcomes.

DENALI COMMISSION

The conference agreement includes a provision, as proposed by the Senate that authorizes such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed. The House bill contained no similar provision.

GRANTS USING H-1B VISA REVENUE

The conference agreement includes a provision proposed by the House that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds. The conferees expect that these activities will include industry career ladder programs and understand that there are some related activities that enhance or facilitate training programs that are part of a coordinated industry approach. The conference agreement provides that this limitation shall not apply to multiyear grants that have already been awarded under competitive solicitations issued prior to April 15, 2007. The conferees understand one additional round of Workforce Innovation in Regional Economic Development (WIRED) grants that would qualify under this limitation was awarded in June 2007. The Senate bill contained no similar provision.

HEALTH COVERAGE TAX CREDIT GAP-FILLER GRANTS

The conference agreement does not include a provision included in the House bill authorizing up to $20,000,000 in revenue available to the Department under section 414 (c) of the American Competitiveness and Workforce Improvement Act to be used for "gap-filler" grants to trade-impacted workers awaiting certification for the Health Coverage Tax Credit. The Senate bill contained no similar provision. The conferees expect the Department of Labor to make grants available to States from the Dislocated Worker National Reserve for this purpose and to increase outreach to trade-impacted workers to inform them of their eligibility for the Health Coverage Tax Credit.

COMPETITIVE GRANTS

The conference report includes a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis. Both the House and Senate bills included similar provisions.

ADMINISTRATIVE COST DEFINITION AND REDESIGNATION OF LOCAL AREAS

The conference agreement includes a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted, as proposed by the Senate. The House bill contained a similar provision.

PERSONAL PROTECTIVE EQUIPMENT

The conference agreement includes a provision as proposed by the House requiring the Secretary of Labor to promulgate a final regulation on personal protective equipment no later than November 30, 2007. The Occupational Safety and Health Administration (OSHA) made a commitment in Federal court to issue a final rule by this date. The Senate addressed this issue in report language.

MINE SAFETY REGULATIONS

The conference agreement includes language requiring specific dates by which the Secretary of Labor propose, and subsequently finalize, mine safety regulations regarding belt haulage entries and rescue chambers in coal mines, and makes additional requirements for review of mine ventilation plans. The Senate bill included a similar provision, while the House bill did not include such a provision.

SALARIES AND BONUSES

The conference agreement includes a provision proposed by the Senate that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II. The House bill contained no similar provision.

MINE SAFETY FUNDING

The conference agreement does not include a general provision proposed by the Senate providing additional funding for necessary expenses for the Mine Safety and Health Administration (MSHA). Funding for MSHA activities are included under the heading for this agency. The House bill contained no similar provision.

NIOSH FIRE FIGHTER PROGRAM

The conference agreement does not include a general provision proposed by the Senate providing that $5,000,000 be available in Title I for the National Institute for Occupational Safety and Health (NIOSH) to carry out the Fire Fighter Fatality Investigation and Preventions Program. Funding for this activity is included within the funds made available to NIOSH in Title II. The House bill contained no similar provision.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The conference agreement includes $7,260,468,000 for health resources and services, of which $7,235,468,000 is provided as budget authority and $25,000,000 is made available from the Public Health Service policy evaluation set-aside, instead of $7,086,709,000 as proposed by the House and $6,888,810,000 as proposed by the Senate. Funds for the individual HRSA programs are displayed in the table at the end of the statement of managers. Funding levels that were in disagreement but not displayed on the table are discussed in this statement.

The conference agreement includes bill language providing $317,684,000 for construction and renovation (including equipment) of health care and other facilities and other health-related activities. The conference agreement provides $50,000,000 for competitive State health access grants, instead of $75,000,000 as proposed by the House, for the same purposes as indicated in the House report. The Senate had no similar provision.

The conferees restate the intention in the Senate report that National Health Service Corps recruitment funds should be used only to support multi-year, rather than single year, commitments.

The conference agreement provides $8,960,000 for allied health training programs, of which $5,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care, $1,980,000 is allocated to the chiropractic-medical school demonstration grants, and $1,980,000 is designated for the psychology training program. The Senate provided $7,960,000 for allied health programs and the House provided $3,960,000.

The conferees have included $6,700,000 for resources to help women preparing for childbirth and first-time parents. Within this amount, the conferees intend that $5,200,000 shall be for grants to States to increase public awareness of resources available to women preparing for childbirth and new parents through advertising campaigns and toll-free hotlines. The House provided $15,000,000 for this activity, which was not funded by the Senate. In addition, $1,500,000 shall be for grants to organizations to support and expand community-based doula activities, including technical assistance, as proposed by the Senate. The House had not funded this activity.

The House proposed $12,000,000 for oral health activities including these oral health demonstrations as well as State grants under section 340G of the Public Health Service Act. In addition to this SPRANS funding, the conferees have provided $5,000,000 for section 340G State grants within allied health.

The conference agreement provides $37,000,000 for a separate program for autism and other related developmental disorders, as proposed by the Senate. The House proposed $30,000,000 within the Maternal and Child Health block grant SPRANS set-aside for these activities. The conferees intend that no less than $6,000,000 be used to continue and expand the Leadership Education in Neurodevelopmental and Related Disabilities program. In addition, no less than $6,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

The conferees provide $1,000,000 for a fetal alcohol syndrome demonstration program instead of $990,000 as proposed by the Senate. The House did not include funding for this activity.

The conferees identify $3,200,000 within traumatic brain injury funding for protection and advocacy services, instead of $3,400,000 identified in the Senate report. The House report did not have similar language.

The conferees are pleased that HRSA intends to allocate the maximum authorized level for the minority AIDS initiative within the Ryan White HIV programs.

The conferees intend that at least fifty percent of the increase within the Ryan White children, youth, women, and families programs be used to increase average grant award size.

The conferees are aware that HRSA has issued proposed regulations revising the requirements for the 340B drug purchasing program. While there are important elements in the regulations that target abuses of the program, the conferees believe there are legitimate concerns regarding the implementation of the proposed rule's definition of patient eligibility. The questions of eligibility and the means by which eligibility is determined are important and should be carefully considered. Therefore, the conferees urge HRSA to move quickly to implement the portions of the regulation that enjoy wide support and consider re-opening the patient eligibility question for an additional public comment period. The House and Senate included similar report language.

The conference agreement includes $38,538,000 for rural flexibility grants as proposed by the Senate rather than $63,538,000 as proposed by the House, and provides $15,000,000 within the total for the small rural hospital improvement grant program as proposed by the Senate.

The House provided $2,000,000 for this program, while the Senate provided $3,000,000. The conferees intend that funding for emergency devices be divided equally between urban and rural communities, as proposed by the Senate.

The conferees note that many rural hospitals are working to implement systems to transmit medical information electronically to help deliver efficient and effective health care services to their patients. The conferees hope that HRSA will continue to examine ways to help such hospitals implement digital technologies, such as picture archiving communications systems and other digital technologies.

The conference agreement includes $143,596,000 for program management instead of $142,191,000 as provided by the House and $145,000,000 as provided by the Senate. The conferees expect HRSA to use no more than one percent of the funds allocated for projects for agency administrative expenses.

The conference agreement provides $6,000,000 for administration for the Trust Fund instead of $3,528,000 as proposed by both the House and the Senate. These funds are necessary to support the adjudication of an expected high volume of claims.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The conference agreement includes $6,288,289,000 for disease control, research, and training at the Centers for Disease Control and Prevention (CDC), instead of $6,138,253,000 as proposed by the House and $6,165,338,000 as proposed by the Senate. In addition, $327,022,000 is made available under section 241 of the Public Health Service (PHS) Act, instead of $319,579,000 as proposed by the House and $269,664,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes bill language designating $147,000,000 for equipment, construction, and renovation of facilities, instead of $10,500,000 as proposed by the House and $220,000,000 as proposed by the Senate. The conference agreement includes bill language to allow CDC to enter into a single contract or related contracts for the full scope of development and construction of facilities and that the solicitation and contract shall contain the clause "availability of funds" as proposed by the Senate. The House did not propose similar language. The level provided includes sufficient funds for the completion of building 24 and for other nationwide repairs and improvements.

The conference agreement includes bill language designating $52,500,000 to provide screening and treatment for first response emergency services personnel, residents, students, and others related to the September 11, 2001 terrorist attacks on the World Trade Center. The conferees intend that this program be administered by the National Institute of Occupational Safety and Health (NIOSH). The House had proposed $50,000,000 in CDC for first response emergency personnel only and the Senate had proposed $55,000,000 in the Public Health and Social Services Emergency Fund (PHSSEF) to be transferred to CDC for responders, residents, students and others.

The conference agreement includes bill language designating $116,550,000 for the National Center for Health Statistics surveys to be available through the evaluation set-aside authorized by section 241 of the PHS Act, instead of $120,000,000 as proposed by the House and $108,585,000 as proposed by the Senate. Also within the set-aside, the conference agreement includes $44,523,000 for Health Marketing instead of $39,173,000 as proposed by the House and $463,000 for health marketing evaluations as proposed by the Senate and $97,404,000 to carry out research activities within the National Occupational Research Agenda instead of $91,861,000 as proposed by the House and $92,071,000 as proposed by the Senate.

The conference agreement includes bill language that not to exceed $19,414,000 may be available for making grants for the WISEWOMAN program to not less than 15 States, tribes, or tribal organizations. The Senate proposed $19,035,000 in this same manner and the House proposed $12,500,000 to not more than 15 States, tribes, or tribal organizations.

The conference agreement includes bill language that out of the funds made available for domestic HIV/AIDS testing, up to $30,000,000 shall be for States eligible for the Early Diagnosis Grant Program, authorized by section 2625 of the Public Health Service Act, as of December 31, 2007. Funding for these grants shall be distributed by March 31, 2008 based on standard criteria relating to a State's epidemiological profile and shall not exceed $1,000,000 for any one State. Any amounts that have not been obligated by March 31, 2008 shall be used to make grants to States and local public health departments for other HIV prevention activities. The House proposed that no funds appropriated may be used to implement the Early Diagnosis Grant Program and the Senate proposed to allow up to $30,000,000 for the program if States are eligible.

The conference agreement includes bill language providing that employees of the CDC or the Public Health Service, detailed to States, municipalities, or other organizations under authority of section 214 of the PHS Act or in overseas assignments shall be treated as non-Federal employees for reporting purposes only and shall not be included within any personnel ceiling applicable to the Agency as proposed by the Senate. The House included similar language but did not include employees in overseas assignments.

The conference agreement includes ongoing pandemic influenza and related activities in the CDC appropriation as proposed by the House. The Senate proposed to fund these activities in PHSSEF to be transferred to CDC.

The conferees note that in September 2007, CDC realigned its budget through a reprogramming and transfer of funds at the program, project, and activity level. The Secretary communicated his intent that the realignment of funds be permanent. Funding levels proposed in the House- and Senate-passed bills did not reflect these changes because the request for reprogramming came after initial House and Senate Committee action on the fiscal year 2008 appropriations bills. Funding levels provided in the conference agreement make the funding realignment permanent. The conferees expect CDC to adhere to enacted funding levels in fiscal year 2008 and to not tap or assess program activities for unrelated purposes.

INFECTIOUS DISEASES

The conference agreement includes $1,848,601,000 for Infectious Diseases, instead of $1,900,508,000 as proposed by the House and $1,762,083,000 as proposed by the Senate. In addition, $12,794,000 is available to carry out National Immunization Surveys to be derived from section 241 evaluation set-aside funds as proposed by both the House and Senate.

Immunization and respiratory diseases

Within the total for Infectious Diseases, the conference agreement includes a program level total of $612,654,000 for immunization and respiratory diseases instead of $636,159,000 as proposed by the House and $527,650,000 as proposed by the Senate.

Within this total, $53,321,000 is for domestic HIV/AIDS testing, instead of $63,000,000 as provided by the House and $45,000,000 as provided by the Senate. Funds are provided for the Early Diagnosis Grant Program within the testing initiative.

The House proposed $3,000,000 for this initiative. The Senate did not propose similar language.

Within the total for mental health programs of regional and national significance, the conference agreement includes $33,680,000 for the National Child Traumatic Stress Initiative instead of $32,360,000 as proposed by the House and $35,000,000 as proposed by the Senate. In funding new grants, the conferees direct SAMHSA to give high priority to centers providing services in areas impacted by Hurricanes Katrina and Rita and who have previous experience in providing such services.

Within the total for mental health programs of regional and national significance, the conference agreement includes $7,500,000 for a wellness initiative, instead of $15,000,000 as proposed by the Senate, to assist local communities in the coordination and improvement of the integration of behavioral/mental and physical health services. In carrying out this wellness initiative, the conferees expect SAMHSA to collaborate with HRSA and CDC. The conferees intend that funding provided will allow local communities to undertake a range of prevention and health promotion activities and expect that grantees must be able to evaluate the success of the program based on their ability to provide evidence-based services. The House did not propose funding for this initiative.
